Since 2004, Touch A Heart, a 501(c)(3) nonprofit organization, has been offering informal social services and meals to homeless individuals and families at Blaisdell Park, Waianae Boat Harbor, and the Kumuhonua Shelter.

In 2014, we adopted a new mission and strategy, then revamped our organization's activities to address the unique situation of those with barriers to employment, including incarceration, homelessness and substance abuse.

We partner with organizations that have underutilized commercial kitchens to conduct our food services vocational training and apprenticeship programs.

We also operate four social enterprises—for-profit businesses that provide training opportunities and support our mission.
