President Lyla introduced our speaker Nani Medeiros, the Chief Housing Officer of the State of Hawaii. Nani has substantial background working with various entities and agencies in finding housing for homeless and in need of affordable housing. She discussed the development of Kama'oku Kauhale, which includes 37 tiny houses to house homeless. Eighteen were sponsored by non-profits and the State matched with another 18, requiring a resident manager to reside in the 37th house. It is a complete community with shared kitchens, bathroom facilities and a community center. Vast support has been given to development of affordable and homeless housing by the local construction industry and by HPU.
