Brand New Locally Made Book

“Bringing Peace To Our World, One Chocolate Story At A Time,” is a collection of 20 routines and reflections released in March 2021. Each reflection is one of her personal journal entries, showing the raw effect of the coronavirus on her life as a full-time mom, her chocolate shop, and her faith.

This book is a must-read for believers, seekers, moms, small-business owners, and anyone looking for some peace in their life. As Erin reflects on each lesson, she provides a roadmap of applicable routines with supporting scriptures to start LIVING our best life possible. Her practical tips will inspire hope for our future!

“One of my greatest fears of coming out of COVID-19, is remaining exactly the same person I was before, and returning to the exact same thing. No difference. But if we’re returning to a “new normal,” wouldn’t that require a “new me?” Or, I should say, a better version of myself? A better version of the business? A better way of living this life together?” -Erin Kanno Uehara
