**From DG Griffing—Day of hope:** Combining leap year with this year's theme, *Create hope in the world*. I proposed a Rotary Day of Hope as a beacon of positivity, encouraging members in the district to embark on new projects that foster hope within their communities. This initiative unlocks the power of club members to channel their passion and expertise into projects. Begin by contacting the organizations your club already funds and inquire about potential partnerships to assist underserved communities. Many of these organizations require additional support behind the scenes, enabling them to concentrate on their core missions. Whether it is advancing peace, providing clean water, supporting education, or promoting economic development, the project should contribute to the well-being of the community and instill a sense of hope for a better future.
