**ADDITION TO CALENDAR:** Nov. 9 Helminski brick 1 p.m.

## Polio in Gaza

The recent detection of variant poliovirus type-2 isolates in environmental samples and the confirmation of a 10-month-old child who has contracted polio in Gaza is a stark reminder that as long as polio exists anywhere, it is a threat everywhere.

The ongoing crisis in Gaza has contributed to reduced routine immunization rates and an increased risk of vaccine-preventable diseases, including polio. The crisis also poses a significant challenge to fully implementing disease surveillance and vaccination campaigns.

A humanitarian pause allowed a two-round polio vaccination campaign to begin in Gaza. The first round was successfully implemented from 1-12 September 2024 and vaccinated 559,161 children, or an estimated 95% of eligible children at the governorate level, according to independently conducted post-campaign monitoring. The second round of the emergency polio vaccination campaign in Gaza began on 14 October.

Rotary has committed US\$500,000 to bolster the initiative. Financial contributions to the PolioPlus fund will help Rotary and its Global Polio Eradication Initiative partners achieve a world in which no child is paralyzed by polio again.
