WPRC MISSION STATEMENT

Serving and enriching our community through leadership and learning

Rogers Behavioral Health

Mental health counselors support clients with varying issues: challenging situations or life stressors, eating disorders, anxiety disorders, depression or depressive conditions, adjustment issues, emotional support for a terminal illness, chronic pain emotional support, grief, personality disorders, trauma relationship conflicts and concerns.

Therapists may help you set and achieve career goals, work on current issues you may be facing, or address your past. They may help you find mental health support for personal growth, anxiety disorders, post-traumatic stress disorder, and other mental health concerns.

Seeing a licensed provider can help you navigate mental health conditions and life circumstances through mindfulness and other specialized techniques.
