### WPRC MISSION STATEMENT

**Serving and enriching our community  
through leadership and learning**

**Long-range planning** is key to bridging the gap between where your organization is and where you want it to go. It's an effective technique for designing and implementing effective plans to take the organization down the road to the future.

Set targets that are feasible and realistic. Don't be tempted to follow your gut by making grandiose plans which are unlikely to succeed.

### Rotary and USAID projects

Rotary has collaborated with the United States Agency for International Development (USAID) since 2009 on different types of programs. Our current programmatic efforts and communications with USAID personnel and leadership are on hold due to the stop-work order issued by USAID. Rotary International has already notified members whose projects are directly impacted by this order and is working to continue to support them in their impactful work.

We are navigating the implications of the recent stop-work order issued for Hearts of Europe projects that are part of a partnership with USAID. All projects that are currently in an implementation phase have been notified and given information about what actions need to be taken while the stop-work order is in effect. We are working directly with those projects that are not yet being implemented to determine alternative funding for their important work.
