Rotary and WHO

Rotary notes the recent announcement that the United States intends to withdraw from the World Health Organization (WHO), a partner in the Global Polio Eradication Initiative (GPEI). We remain resolute in our mission to eradicate polio. As a founding partner of the GPEI, Rotary has for decades worked closely with all the GPEI partners, the U.S. government, and other governments to end polio worldwide. This effort has reduced the number of children paralyzed by polio by 99.9% since 1988. The global effort to eradicate polio has innovated many times over the years to come close to protecting every last child.

Although this decision creates new challenges, Rotary remains dedicated to ensuring that every child is protected from this preventable disease. We are confident that the GPEI will continue to adapt, to innovate, and to implement effective strategies to keep polio vaccines available for every child in the United States and around the world, especially those in the most challenging and remote regions. The most important decisions leading to a polio-free world are made every day by parents who present their children for vaccination.

We remain committed to working with all GPEI partners to fulfill the promise of a polio-free world. Together, we have ended smallpox, and together, we can ensure that polio becomes the second human disease to be eradicated from the planet.
