DG BOB COOPER SHARED HIS VISION

This week's meeting was the opportunity for members to meet DG Bob Cooper and his wife Wendy . Bob enlightened us with his vision for his term as DG. Evolving from the vision of International President Sakuji Tanaka, Bob clarified the Peace Through Service vision as peace that you give to other people.

This can be many things that we take for granted like toilet paper, education and fresh water. His vision was for Rotarians to work together to make a difference. Themes included signs , arks and wishing wells. He reiterated that our Rotary signs/ parks need to be well maintained as they are the ' shop window of Rotary'. We need to embrace technology as it seeks to capture and attract the next generation of Rotarians. We need to promote the 'fun and social' aspects of being a member. Finally, he suggested we need to fortify current successful projects, such as the polio project. The success of these projects have attracted complacency amongst the newer generation who have never experienced the impact of this disease and choose not to immunise. President Stephen thanked Bob for taking the time to visit and share his vision with us.
