HELPING KIDS IN KENYA

Bruce Lynch introduced our guest speaker for this evening, Craig Barratt, from Tenderfeet Educational Centre. The centre is for orphans in Kibera, in Kenya. With the rapid advancement of HIV virus and political Instability, many children are orphaned and left to fend for themselves at very young ages. Craig is raising money so that the orphaned children can be educated, fed and taken off the street in order to curb the poverty cycle. Craig explained how he became involved in the project, a little about its evolution to a permanent school site and the plans for the future. His slide show presentation was confronting and disturbing, but highlighted the things we take for granted.

Originally, Craig was planning a safari trip to Kenya, but he wanted to do something more and so he took over educational supplies and books to the orphanage. He was just going to drop off the materials, but noticing the high level of interest he delved deeper into the workings of the orphanage to reveal some staggering statistics, that compelled him to help further.

MORE ABOUT TENDERFEET EDUCATION CENTRE

The keeper of the orphanage/ school , Mama Margaret Nyabuto, gave Craig a tour of Kibera and explained their plight. The open sewers, overcrowding, flooding, and alcohol abuse meant this was a dangerous place for children. Mama Margaret explained that for as little as a dollar a day we could improve the lives of these orphans.

Her philosophy of live, laugh and learn are providing hope for hundreds of young children. Ironically, next door to the densely populated slums of Kibera is an 18hole golf course. In a positive note the school now has their own site and have also started a boarding school for girls. We can help by spreading the word and of course financially. Sandro thanked Craig and presented him with a Rotary pen.
