THIS WEEK'S CLUB SERVICE

Greeter: Jennifer Ellison
Photographer: Mike Platt
Invocation: Paul Rossi
Music Provided by: Jim Hudson
COGS: Cindy Long

THIS WEEK

The Corning Rotary Club gathered for lunch and friendship at the Corning Radisson. The Invocation was given by **Paul Rossi** who offered a prayer of encouragement.

President Wendy thanked the servers and all of the service members. She also encouraged members to view the website for new members.

MEMBERS AND GUESTS

Jennifer Ellison introduced Rotarians who then introduced their guests. **John Brown** introduced his wife, **Margo**.

Peter Herzberg was a visiting Rotarian. Unfortunately beloved Teddy passed away earlier this year.

MEMBER ANNOUNCEMENTS

Bob Cole announced the Save the Date for Art of the Arc, Saturday, November 10, 6:00 pm to 8:00 pm at the Glen H. Curtiss Museum, Hammondsport, NY. All proceeds benefit the Arc of Steuben.

Stu Sammis thanked all of those that volunteered for the Wineglass Marathon.

President Wendy then in-turn thanked **Stu** for building the planting boxes at the new community garden in Erwin.

Paul Tick announced that the World Series pool summary was on the tables.

Dick Pope announced the tenth annual Bob Rockwell Foundation Dinner is being held at the Corning Country Club on Friday, November 2, featuring music by the Rotary Outlaws. Price: \$65 a person.

Frances LaLomia was honored with a bottle of Atwater wine courtesy of **Ted Marks** for bringing in a new member in the month of September.

Paul Harris Fellow

Margot Brown is our newest Paul Harris Fellow for all of her work at the Corning Library and her work with education. Her husband, **John Brown**, presented her with her Paul Harris pin! Congratulations, **Margo**!

PRESIDENT WENDY'S FINE TIME

President Wendy began Rotarian Happy Times, but not without asking a few questions about Polio. Gosh, no one knew the answers. National Polio Day is October 24 and there is no cure for the disease. I guess we will have to read our Rotarian magazine in the future.

Bill Plummer was happy for National Mole Day when he is meeting with other chemists in Mansfield! There are 6.022×10^{23} molecules in a mole (a unit of measurement for the amount of substance in the International System of Units). It might be mentioned that this constant is known as Avogadro's number.

Dick Pope was happy because he learned a new word: *embouchure*. If you guessed the definition as "the position and use of the lips, tongue, and teeth in playing a wind instrument," you were correct!

Laura Matson was happy because her daughter got married last weekend.

Pauline Emery was happy that her cat was rescued from being trapped in a wall.

Buddy Cutler was happy because his younger brother got married last weekend.

PROGRAM

President Wendy called on several Club committee chairs to provide members with information about how they could serve.

Pauline Emery and **Frances LaLomia** gave a talk about the International Committee and encouraged members to become involved if they want to make change in the world. They work on the International dinner to provide funds for projects like the House with Heart, building houses in El Salvador, and disaster relief, and work with other clubs to write global grants.

Gerry Wolfe is the Chair of the New Generations committee. This committee is committed to helping children in need. New Generations is focused on supporting the youngest members in the Rotary family. Rotary's youth programs include Interact (ages 12 to 18), RYLA (grades 10 to 12), Rotary Youth Exchange (ages 15 to 19), Scholarship, the Spelling Bee, and Literacy. New Generations is described as our investment and responsibility in future Rotarians.

Paula Smith introduced the Rotary Foundation Committee. They raise the funds for the Rotary Annual Fund and the Rotary International Fund. She shared that all funds collected for the Foundation go toward your points for Paul Harris Fellow. She shared that there are no meetings and all the work takes place over the phone.

Stacy Ward introduced the Community Service Committee that overlaps with many other committees. It is the volunteers that make the service projects happen. Projects include: the Pancake Supper, International Dinner, Literacy Program, Spelling Bee, Community Garden, Habitat for Humanity, 4th of July Fireworks, Nascar, Camp Star Dinner Dance, Wineglass Marathon, Highway Cleanup, Park Maintenance, Gaffer District Projects, and Salvation Bell Ringers.

50/50: The \$8 pot was won by **Stacy Ward's** table. The big pot still sits.
