The New Sherriff Was in The House

Monroe County Sheriff Todd Baxter gave the club an overview on his new role as Sheriff.

- The current Opioid Crisis is a CRISIS and a Major Health epidemic. With the numbers climbing like a rocket— with the average death being 45 years old—Parma &Greece both had deaths in the last month of a 71 & 60 year old.
- He is asking for community support and conversation to help at least raise awareness to this health crisis. I have put the recent Opioid Information on our website at the top of the website page.
