**Follow-up, debriefing and plans about last week's forum**

Mike asked each of us for 5 ideas that would improve the quality of life for residents of NW Rochester with a focus on behavioral health. Sticky notes were passed out and posted. The plan is to later group the suggestions into major themes. (Mike, Paul, and Bobbie).

Scott emphasized the importance of grassroots and neighborhood-based projects. Models can be considered, taking into consideration what the needs are OR where the funding is. The result of this activity would be a **needs-based assessment**.

**Next Steps**
