TONIGHT'S MEETING - 22 AUGUST 2023

*** NOTE - THIS MEETING WILL BE HELD AT NORTHBRIDGE GOLF CLUB ***

Guest Speaker - Ian Burnet

"Archipelago - A Journey Across Indonesia"

Ian visited us as our Guest Speaker in October 2021 when he gave a fascinating talk on the voyage of Joseph Banks on Capt. James Cook's Endeavour.

Ian first went to work in Indonesia in 1968 as a young geologist and became fascinated by the diverse cultures and rich history of the archipelago. He has spent thirty years, living, working and travelling in Indonesia. This

is reflected in his books Spice Islands, followed by East Indies, then Archipelago - A Journey Across Indonesia, then Where Australia Collides with Asia, then The Tasman Map and now his latest book Joseph Conrad's Eastern Voyages.

This beautifully illustrated and informative book takes the reader on a journey both through the landscape of Indonesia and back through Indonesia's past.

NEXT MEETING - 12 SEPTEMBER

Guest Speaker - Ahmed Kelly

“A Paralympic Swimmer”

Ahmed Kelly is an extraordinary Australian, an orphan from the Gulf War, three time Australian Paralympian swimmer (London, Rio and Tokyo), Paralympic Silver Medallist 2020 and Para World Champion 2023.

If you would like to be inspired and energized, then join us on Tuesday 12th September for an amazing presentation. Born in Iraq following the Gulf War, Ahmed Kelly and his brother Emmanuel were found in an Orphanage by Moira Kelly, adopted and brought home to Australia where they grew up in Melbourne. Growing up was never easy for Ahmed as a quadruple amputee but he had a confidence and self-belief that he could do anything. And he does ... every single day!

LAST MEETING - 8 AUGUST

Guest Speaker - Emeritus Professor Don Napper

“The Sad Life of Francis Greenway, our First Government Architect”

Emeritus Professor Don Napper provided an interesting journey through the life and career of Francis Greenway, from Bristol in the UK to becoming the Government Architect in NSW.

Greenway's face was shown on the first Australian decimal currency \$10 note, ironically being probably the only convicted forger in the world to be honoured on a banknote.

Some aspects of his Regency architecture style developed in the UK are shown in the many remaining buildings he designed in Sydney, several of which Don displayed in photographs during his presentation.

Don explained how Greenway was an astute businessman, and not reluctant to do some “*horse trading*” to achieve a goal.

Don's address also touched on the egocentric Governor Macquarie, for whom Greenway worked, and Macquarie's pension to name many of the buildings, streets and places in Sydney after himself.

Whilst that red brick square block of apartments just off the Harbour Bridge bears Greenway's name, not one aspect or characteristic of Greenway's architectural style is captured in that building by its architect.

GOLDEN NEEDLE GLOBAL GRANT UPDATE - AUGUST

Following support from our club, the Izmir (Türkiye) Club has been granted approval by The Rotary Foundation for a fourth training centre and the relocation of one of the training centres.

The latter was in response to the impacts of the recent earthquake in Türkiye.

The addition has been possible through additional support by the MOU partners being the Municipality of Izmir (*through the supply of a new centre, teachers, teaching materials and sustaining the centres*) and the Aegean Clothing Manufacturers Association (*through the supply of fabrics and employment of graduates*).

A good development and a further sign of the program's success.

WHEN: Friday 1 September from 7.30am - 9am

We need 20 volunteers!

We have been asked to arrive at 7am as the event starts at 7.30am and concludes at around 9am.

If you are able to assist, please let me know so I know how many will be coming.

How to Protect Yourself Online

TIP

Passwords

- 1 Avoid obvious passwords that are easy to guess, like "123456."
- 2 Don't use passwords that can be guessed on your personal information, like date of birth.
- 3 Use a series of at least four unrelated words, since it's harder to crack.
Alternatively, mix special characters, upper and lowercase, and be a minimum of 10
- 4 characters.
- 5 Ideally, use a password manager to generate secure passwords and remember your logins.
- 6 Use two-factor authentication to make it more difficult for someone to access your account.
- 7 Never share your password with anyone, no matter who claims to be asking for it.
- 8 Don't write your passwords down; or at least not anywhere obviously accessible.
- 9 Change your passwords regularly to protect against data leaks.
- 10 Never use the same password twice; they should always be unique and unrelated.

Web browsing

- 11 If you don't recognize a link, don't click on it.
- 12 Check the address bar to ensure you're on the website that you think you are.
Is the website using a secure HTTPS connection? If not, there's greater risk of data
- 13 interception.
- 14 Check the lock icon in the address bar; is the website registered to who it should be?
- 15 Avoid adverts disguised as fake download links; if you're uncertain, don't click.
- 16 The dark web is full of scams and illegal activity, so avoid it.
- 17 Only download from trusted providers, and even then scan the files with anti-virus software.

Social media

- 18 Everything you put online is permanent, so only share what you're comfortable with.
- 19 Thoroughly review all your social media privacy settings so you know what's public.
- 20 Never let anyone else use your social media account, nor log in on a public computer.
Social media is full of hoaxes and scams. Remain vigilant. If something sounds too good to be
- 21 true, it probably is.
Do not overshare. You don't know who's looking at your information or what they're doing
- 22 with it.
Only share information of those who have consented. Are you sure you should share pictures
- 23 of your children?

Antivirus

- 24 Every system is susceptible to viruses, but some more than others.
You don't need to pay for antivirus software. Windows Security is a great built-in option, for
- 25 example.
Avoid dodgy downloads and opening unknown email attachments, since viruses are often
- 26 spread this way.
- 27 Educate yourself on the difference between viruses, malware, and keyloggers.
- 28 The ultimate, nuclear way to clean a virus from your system is to completely wipe everything.

Data

- 29 Encrypt private data and don't share the encryption key with anyone else.
- 30 Don't store sensitive data in the cloud; keep it entirely disconnected from the web.
- 31 External drives can easily be physically stolen, so be cautious about what you store on them.
If you're done with a drive, investigate how to securely wipe one; simply deleting the data
- 32 isn't enough.
- 33 If you buy a used computer, factory reset it and wipe it completely from top to bottom.
- 34 Back up your data: at least three copies, on two different types of media, with one off-site

ONLINE SECURITY (con't)

Email

- 35** The email sender can be spoofed, so that email might not be from who it claims to be.
- 36** Don't recognize the sender? Not expecting that email? Don't open it and delete it.
If an email asks you to click a link or open an attachment that seems suspicious, trust your
- 37** instincts and delete it.
If you're being asked to share sensitive information, don't do it. Your bank, ISP, Amazon, and
- 38** so on will never ask via email.
- 39** If someone is trying to impose a sense of urgency for you to do something, it's probably a scam.
That long-lost relative who has died and wants to leave you a bundle of money? It's fake.
- 40** Delete the email.
Your spam filter offers some protection, but it isn't foolproof, so don't assume everything in
- 41** your inbox is safe.

Software

- 42** Keep all the software on your computer up-to-date, to patch vulnerabilities and enjoy the latest features.
- 43** Install operating system updates as they come through, especially critical security ones.
- 44** If you no longer need software, uninstall it completely.
- 45** Don't install random browser extensions, and only use those from trusted publishers.

Smartphones

- 46** When you install apps, check what permissions they ask for; be wary of camera, microphone, and location access.
- 47** Only install apps from the authorized app stores, though even then you have to be cautious.
- 48** Don't send and receive sensitive data over public Wi-Fi connections.
- 49** Protect your phone with a PIN, pattern, fingerprint, or some type of security lock.
Follow the same precautions you do on your computer, like avoiding dodgy sites and
- 50** downloads.
- 51** Keep your phone on you whenever possible; this also protects against SIM card swapping.

WORLD POLIO DAY 2023

Mark your calendars for World Polio Day 2023

Join the global movement on 24 October as Rotary, Rotaract, and Interact clubs around the world take action to promote awareness of polio and raise funding for Rotary's polio eradication efforts. With poliovirus being reported in previously polio-free areas, the past few years have truly shown that polio anywhere is a threat to children everywhere.

In this critical year for polio eradication, we need your help to show the world the tenacity of Rotary members in accomplishing an audacious goal: a polio-free world. Visit our World Polio Day webpage for resources and tips on how you and your club can participate in promoting a polio-free world on 24 October.

Let's make polio history. Together, we end polio!

5 actions you can take to support #EndPolio

1. Follow End Polio Now on Facebook and Twitter, and share our content.
2. Help your club organize an activity for World Polio Day (and don't forget to register it).
3. Promote World Polio Day on social media. Sample message: A polio-free world is possible, but we can only achieve it by acting together. On 24 October, join @Rotary for #WorldPolioDay and together, we #EndPolio.
4. Ask whether your district has a PolioPlus Society. If not, encourage your District Governor to start one.
5. Encourage others to sign up for the End Polio Now newsletter. To sign up, visit endpolio.org, scroll to the bottom of the webpage, and enter your email address.

ABOUT ROTARY

Paul Harris

The world's first service club, the Rotary Club of Chicago, Illinois, USA, was formed on 23 February 1905 by Paul Harris.

Rotary is a worldwide organisation of business and professional leaders that provides humanitarian service, encourages high ethical standards in all vocations, and helps build goodwill and peace in the world. More than 1.2 million Rotarians belong to over 35,000 Clubs in 210 countries and geographical areas. Rotary Club membership represents a cross-section of the community's business and professional men and women. The world's Rotary Clubs meet regularly and are non-political, non-religious, and open to all cultures, races, and creeds.

The Rotary motto is ***Service Above Self.***

OBJECT OF ROTARY

The Object of Rotary is to encourage and foster the ideal of service as a basis of worthy enterprise and, in particular, to encourage and foster:

- FIRST. The development of acquaintance as an opportunity for service;
- SECOND. High ethical standards in business and professions, the recognition of the worthiness of all useful occupations, and the dignifying of each Rotarian's occupation as an opportunity to serve society;
- THIRD. The application of the ideal of service in each Rotarian's personal, business, and community life;
- FOURTH. The advancement of international understanding, goodwill, and peace through a world fellowship of business and professional persons united in the ideal of service.

ADVANCE AUSTRALIA FAIR

Australians all, let us rejoice,
For we are one and free,
We've golden soil and wealth for toil
Our home is girt by sea;
Our land abounds in nature's gifts
Of beauty rich and rare;
In history's page, let every stage
Advance Australia Fair.
In joyful strains then let us sing
Advance Australia Fair.

ROTARY THANKS

For the community, friendship, and the opportunity to serve through Rotary, we give thanks.

THE FOUR-WAY TEST

1. Is it the TRUTH?
2. Is it FAIR to all concerned?
3. Will it build GOODWILL and BETTER FRIENDSHIPS?
4. Will it be BENEFICIAL to all concerned?
