Guest Speaker from Last Meeting 21st February

An old favourite, Lindsay May, excelled his normal excellent presentation on the Sydney Hobart Yacht Race last year, by providing several brilliant videos of the action on the way south.

Lindsay was competing in his 42nd Hobart race on the venerable yacht Kialoa II, which finished first way back in 1964. On board was a well known photographer Dallas Kilponen and his wonderful action shots gave a magnificent bird's eye view of all that was happening from start to finish. The old girl Kialoa II took a while to get going in the congested harbour but out to sea with a following breeze the pictures showed just why off-shore sailing is such an exhilarating sport. Lindsay described the way modern technology has advanced the ancient art of navigation with the Global Positioning System able to provide an instant accurate position, making sextants a relic of the past.

It is always a pleasure to hear Lindsay's take on the race each year and we eagerly look forward to many more.

Humour by Geoff Pritchard

"The Budget should be balanced, the Treasury should be refilled, public debt should be reduced, the arrogance of officialdom should be tempered and controlled, and the assistance to foreign lands should be curtailed, lest Rome will become bankrupt. People must again learn to work instead of living on public assistance."

Cicero, 55 B.C.

So, we've evidently learned absolutely nothing over the past 2,073 years!
