MEETING on 10 OCTOBER 2017 (6.00 pm for 6.30 pm)

GUEST SPEAKER **Philip Holliday**

B.Sc. (Hons) University of Teesside
Chief Operating Officer and Harbour Master Sydney
Philip joined Sydney Ports Corporation in May 2011 as Executive General Manager, Operations and Harbour Master.
He has been in his current role of Chief Operating Officer and Harbour Master, Sydney following the amalgamation of the Sydney, Newcastle and Port Kembla port corporations in 2014.

In this role he is responsible for leading Sydney port operations including pilotage, vessel traffic services, marine operations, security and hydrographic survey services.

Philip is also responsible for the Port Authority's operational and commercial management of cruise operations.

Philip has spent his entire career in the shipping and ports industries, starting as a 16 year old cadet when he joined Ropner Shipping Services and later moving to Souter Shipping where he gained his Class 1 (FGN) Masters certificate.

In 1998, Philip joined the UK's largest port operator, Associated British Ports (ABP) in a port operations role. Following a number of roles within ABP he became the Harbour Master for the ABP Port of Southampton and the Marine Advisor for the group's 21 UK ports.

Philip is currently Chair of the Ports Australia's Port Operations Working Group and took a lead role in the development of the Australian Port Marine Safety Management Guidelines.

SEE INFORMATION ON THE PORT AUTHORITY OF NSW ON NEXT PAGE

PORT AUTHORITY OF NEW SOUTH WALES

Port Authority of New South Wales (Port Authority) is a state owned corporation which manages the navigation, security and operational safety needs of commercial shipping in Sydney Harbour, Port Botany, Port Kembla and the ports of Newcastle, Eden and Yamba.

The primary role and responsibilities of Port Authority of New South Wales includes:

- safe navigation of shipping movements within each port
- management of harbour/port approaches and channels
- pilotage (marine pilot safely navigating a ship in and out of a port)
- port security
- safety of port operations
- emergency response including the clean-up of spills in the marine environment
- administration of the dangerous goods regulation contained in Part 11 of the repealed Dangerous Goods Regulation 1999 preserved by the Work Health and Safety Regulation 2011

Port Authority manages and operates the ports at Glebe Island, White Bay, Eden and Yamba and has the role of Harbour Master in all NSW ports. Each Harbour Master is appointed under section 85 of the Marine Safety Act 1998 (NSW). The general function of a Harbour Master is outlined in section 88 of the Marine Safety Act and can be summarised as having 'powers to direct and control the movement, entry and exit of vessels within port areas'.

Port Authority is also the lead agency for responses to maritime incidents in coastal waters stretching from Fingal Head, Port Stephens to Gerroa, Seven Mile Beach, south of Port Kembla.

Port Authority owns and manages common user berths at Glebe Island, White Bay and the Overseas Passenger Terminal. Port Authority also provides land on long term lease adjacent berths on Glebe Island.

Sydney Harbour cruise facilities at the Overseas Passenger Terminal, at Circular Quay and White Bay Cruise Terminal are owned and managed by Port Authority.

PRESIDENT'S REPORT

We often say some of the best speakers are our own members and this was true at the last meeting when Ian Robertson updated us on his career in IT and an insight into the developments in communications and technologies and in particular the security systems now and what we can look forward to when we walk through the airports.

I again remind you of our BBQ commitment on Sunday 22nd October between 10.00 and 2.00 at the Ku-ring-gai Art Centre and their event in the mural unveiling of 'Telling Our Stories with clay created by local children.

It's not a big fund raiser for us but an ideal time and event to promote Rotary and our club.

The Australian Rotary Health Dinner is to be held on Thursday 19th October at Dooleys Catholic Club 24 Johns Road Lidcombe at a cost of \$50 per head.
President Peter

LAST WEEKS SPEAKER - PP IAN ROBERTSON

PP Ian Robertson shared with us his diverse career through engineering, communications and information technology, and the emerging sophisticated security systems which Ian explained will be common in Australian Airports in the near future. The developments in this area of security are quite incredible and airport screening will identify any objects, substances or thing that isn't part of a persons natural physical structure.

The control of advertising and game play at sporting events is also very complex and involved, and Ian took us through what occurs in the control box at a SWANS football match. So to is the ability to manage Crowd specs where the technology can now record "family units" at a game and through that identify the adults of a group from whci a youngster may have wandered away and become lost - through the technology the adult group and youngster can be brought together very quickly.

All a bit of "big brother is watching you" but used appropriately, and not by groups with evil or illegal intent, assists in enhancing our community security and safety.

Thanks Ian for the fscinating presentation and for exposing us to the development in, and use of technology, in the numerous areas of our lives.

ABOUT ROTARY

Paul Harris

The world's first service club, the Rotary Club of Chicago, Illinois, USA, was formed on 23 February 1905 by Paul Harris.

Rotary is a worldwide organisation of business and professional leaders that provides humanitarian service, encourages high ethical standards in all vocations, and helps build goodwill and peace in the world. More than 1.2 million Rotarians belong to over 34,100 Clubs in 210 countries and geographical areas. Rotary Club membership represents a cross-section of the community's business and professional men and women. The world's Rotary Clubs meet regularly and are non-political, non-religious, and open to all cultures, races, and creeds.

The Rotary motto is ***Service Above Self.***

OBJECT OF ROTARY

The Object of Rotary is to encourage and foster the ideal of service as a basis of worthy enterprise and, in particular, to encourage and foster:

- FIRST. The development of acquaintance as an opportunity for service;
- SECOND. High ethical standards in business and professions, the recognition of the worthiness of all useful occupations, and the dignifying of each Rotarian's occupation as an opportunity to serve society;
- THIRD. The application of the ideal of service in each Rotarian's personal, business, and community life;
- FOURTH. The advancement of international understanding, goodwill, and peace through a world fellowship of business and professional persons united in the ideal of service.

ADVANCE AUSTRALIA FAIR

Australians all, let us rejoice,
For we are young and free,
We've golden soil and wealth for toil
Our home is girt by sea;
Our land abounds in nature's gifts
Of beauty rich and rare;
In history's page, let every stage
Advance Australia Fair.
In joyful strains then let us sing
Advance Australia Fair.

ROTARY THANKS

For the community, friendship
and the opportunity to serve
through Rotary, we give thanks.

THE FOUR-WAY TEST

1. Is it the TRUTH?
2. Is it FAIR to all concerned?
3. Will it build GOODWILL and BETTER FRIENDSHIPS?
4. Will it be BENEFICIAL to all concerned?
