### All the News that Fits We Print

#### **Before the Bell**

Friday's meeting saw the arrival of the much-anticipated and very welcome first rain storm of 2012 - now we all want the sun to come back.

#### **At the Bell**

**Denny Gaya** led the *Pledge of Allegiance*. **Keller McDonald** could not think of a football song ( *Cheer, Cheer for Old Notre Dame?*, *On Wisconsin?* the *Rambling Wreck of Georgia Tech?* ) so he announced that we would all join together and sing "*San Francisco, Here I Come*". It went something like this -- San Francisco Here I Come, Da Da Da Da - Da Da Da, Da Da Da, Da Da Da, Da Da Da Da..... **This scribe** was sitting next to a visiting Rotarian who said that she was impressed that we are a "singing club". She set the bar for being impressed pretty low. Fortunately, later in the meeting, everyone remembered the words to "*Happy Birthday to You*" to sing to **Jackie Moreira**. **Rev Gene Nelson** resisted the temptation to give a eulogy on the death of the Packer title hopes and gave an invocation instead.

#### **Visiting Rotarians and Guests**

Jackie Taylor

Jackie Taylor, visiting Rotarian from Petaluma was introduced

**Dorothy Rodella** introduced coworker Andrea Lifo and also **Honorary Rotarian Bristol Hassler**.

**Mike Ferguson's** guest was Rick Williams, owner of Harmony Farm Supply

Several spouses attended, including **Bob Roger's** wife and caregiver **Peggy**; **Tom Lippert's** wife **Charel**; **Sally Ewald's** husband **David** (who said he was looking for a better lunch than he could get at home) and **Katy Spyrka's** husband, **Scott**.

**Tom Dilley** introduced Sebastian Jane. **Pauline Pellini** brought two Brook Haven Interactors - Brenna and Melody.

Rick Williams

## 🍎 Future Programs 🍎

**January 27<sup>th</sup>**  
**Speaker:** Sharon Smith  
**Program:** Court Appointed Special Advocates (CASA)  
**Host:** Kent Seegmiller

**February 3<sup>rd</sup>**  
**Speaker:** Mary McEachron  
**Program:** The Buck Institute

## 🍎 Announcements 🍎

A moment of silence was held for the passing of Rotarian **Jim Wiseman**. He was a highly regarded member of the club, the “song meister” and a tireless worker. Good thoughts for **Jim**.

**Rev Gene Nelson** will be receiving his Citizen of the Year Award on Thursday January 26 in the Sebastopol Community Church Memorial Hall. Way to go - **Gene**.

**Bob Rogers** announced that Rotary has reached the required level to receive the Bill and Melinda Gates Foundation's Challenge Grant of \$200 million dollars. While that might not seem like a lot of money to some of you, it's pretty impressive. Bill and Melinda decided to kick in another \$50 million to go with it. **Bob** also

announced that his knee surgery this week went well - he looked pretty spry.

**Dorothy Rodella** and Andrea Lifko announced that the Crab Feed is sold out. No nagging necessary, the job is done. Not to be outdone, **Jack Blasco** took up the microphone to plead persuasively for additional volunteers to work the Feed.

Several highly prized and prestigious jobs have yet to be filled like **Pot washer** and **Dining Room Clean up crew**. The **Dining Room Clean up crew** has only 30 minutes to evacuate the dining room for the second seating. Its like a contest on a reality TV show: Tense, competitive, and ultimately greatly satisfying. You too could get your 15 minutes of fame - twice. Sign up Now.

**President Aleia** announced that January 20 (That night –Ed.) is Happy Hour night at GTO's and the first seating of the Mystery Dinner Theater at Corks.

## 💰 Recognitions and Fines

**President Aleia** took some time to recognize the **long term members of the Sebastopol Rotary Club**. These members are the heart and soul of the club and deserve a few minutes of gratitude.

**Brad Benedetti, Pierre Lagourgue, Mike Long, Ron Puccinelli, Ken Silveira** - 25 years

**Ken McHugh** - 26 years

**Brian Langermann** - 27 years

**Mark Fink, Mark Sell, Tony Given** - 28 years

**Mike Ferguson, Guenter Meiburg, Paul Thielen, Bob Hirsch** - 29 years

**Rev. Gene Nelson** - 30 years

**Bud Daveiro, Bruce Harding, Harvey Henningsen, Dick Zimmer** - 32 years

**John Blount** - 35 years

**Dave Madsen, Al Carrion, Larry Ford** - 36 years

**Russ Tighe** - 38 years

**Norm Stupfel, Harry Polley** - 42 years

**Hal Pellini** - 52 years

**Harry Polley** was asked to reflect on his years as a Rotarian and he said that it gave him a wonderful opportunity to serve the community and the world. He said simply that finding Rotary was the best thing to happen to him in his life. **President Aleia** challenged the membership to share the experience and bring someone to a meeting, soon.

**Patti Blount** recently celebrated a birthday by going out to dinner with friends and then making a trip to Costco.

**Bob Hirsch** spent his birthday motorcycle riding followed by dancing to the guitar stylings of Johnny Hiland in Guerneville (a happening town)

**Jim Pacatte** spent his birthday with his kids and grandkids.

**Sally Ewald's** birthday saw duty come before pleasure as she attended a Rotary Board meeting. She followed it up with dinner and a gift of white roses.

**Frank Mayhew** celebrated his birthday and he announced his goal of having 32 more so he can enjoy his 50th wedding anniversary with **Kathie**. He will be a youngish 106.

**Jackie Moreira** was in the act of celebrating her birthday at the Rotary meeting and planned to continue the fun at the Mystery Theater Dinner. **Jackie** was fined \$10 while everyone else ponied up \$5

**Dan Davis** and **Denny Gaya** were each fined \$25 for daring to appear in Oakland Raider outfits. The 49er fans in attendance tried to

understand the anguish of cheering for a mediocre team that is going nowhere. Speaking of which, **President Aleia** had on her Boston Patriot gear, a team best known for being in the original American Football League.

**Brad Benedetti** was fined \$20 on news that he attended the recent 49er playoff game. He complained that he had to stand up for 90% of the game which is puzzling as it is common for 49er fans to stand up for the entire game, even while watching it at home.

**Tom Lambert** was fined \$35 for a recent trip to South Africa. He said that it was just like Carmel or Monterey if Carmel or Monterey had baboons and ostriches on the beach. He showed several slides of African Big Game seen in the wild during a safari. He also showed some of the poverty stricken areas around the city of Cape Town.

### **The Raffle**

**Harry Polley** won a chance at the wheel of fortune but alas, no fortune. We hope he doesn't have to wait another 42 years to get a second chance.

## PROGRAM

**Mike Ferguson** introduced the program with the unfortunate news that the advertised Sheriffs Helicopter landing was to be postponed until later in the summer. Whether it was political machinations or simply bad weather that caused the postponement is not immediately known. **Mike**, however, flew a small, plastic \$10 remote control helicopter around the room to make up for the missed excitement of the real deal.

**Mike** then introduced the speakers Dave and Dorothy Nagle.

Dave and Dorothy Nagle worked their entire careers in law enforcement in Sonoma County. Dave was a sheriff's deputy and Dorothy a dispatcher. As retirement age neared, they realized two things, 1) they had spent a good deal of their working lives apart and 2) they wanted structure to their retirement years to maximize opportunities to learn and have adventure.

Dave had had plenty of adventure in his career including two broken backs, 7 knee surgeries, and two shoulder surgeries. He also showed a slide of his head injury that looked like a coconut split with a machete and sewn up with roofing nails. He wanted retirement to be somewhat slower paced. Eight years ago, their spirit of adventure in retirement took them to Hong Kong to purchase and have built at 50 foot "Diesel Duck" boat, essentially a salmon trawler fitted out as a live aboard vessel. They bought it as a keel and bulkhead and waited 2-1/2 years while it was being built. They crewed on a similar boat during the wait to gain experience.

In May of 2006 they moved on to their new boat christened the M/V DavidEllis in memory of their fathers. They soon set off on a 20,000 mile sea voyage of discovery. They sailed (and diesel) to the Philippines where they set up in Subic Bay and stayed for a year. They soon acquired a dog and returned to Hong Kong for

another stay. They then went north to Taiwan and Southern Japan. The voyage continued to the Aleutian Islands, clearing immigration at Dutch Harbor, and on to Kodiak. They eventually stayed for over 2 years in Alaska.

This fall, the world traveling retirees returned to California and Sebastopol. Some retirees get a Winnebago, some take up golf, some buy a boat and sail around the world. Dave and Dorothy Nagle aren't likely to do the first two of these real soon. They are likely to be busy, sailing the seven seas and looking for adventure. You can follow their exploits on their blog at [www.sailblogs.com/member/sempergumbi](http://www.sailblogs.com/member/sempergumbi).

## The Closing Bell

**President Aleia** thanked Dave and Dorothy Nagle for their inspiring presentation and presented them with a contribution to Polio Plus in their honor. **President Aleia** then rang the bell and closed the meeting, right on time at 1:30 p.m.

## After The Bell

Don't miss the Old AppleKnocker Section at the end of this newsletter. A special find.

## James Vincent Wiseman, 1918–2012

### Joined Sebastopol Rotary 1983

"Quiet dignity, Willingness to step in and help – in both our church and Rotary. Worked behind the scenes – His scoreboard just appeared. Tutored students in calculus. Quiet sense of humor, Good Poker player, Could deliver a joke, Hospitable. A senior leader in his career. Jim's opinion often sought – people listened to what he said."

"Jim joined our club in 1983. Just recently, He donated \$1,000 to our Learn to Swim program in honor of his wife Virginia, who passed away last May. They were married 70 years."

"Jim, being an 'engineer type', designed and built our 'running total' sign that we use at the Lobster Feed. It's been used for years... for the Great Getaway before the Lobster Feed."

"My memories of Jim are tied to Virginia. They truly were in love with each other. When I see Jim's smiling face and hear his quiet measured voice, I see Virginia standing beside or behind him. Beverly and I visited them in the middle of the Mojave Desert, where they spent 20+ years. When I asked Jim what there was to do there, he calmly said with a smile on his face and a twinkle in his eyes 'Well we made lots of good friends there and there was always rock collecting in the many rock clubs.' That was Jim making lemonade out of lemons. I sure miss Jim and Virginia."

"Jim has been such a part of the work I've done in Rotary. Perhaps a highlight was the conference when he was 'the professor'. He spent literally days collecting and building the 'time machine'. Jim would also build props for our debunkings – lots of them over the years. He also liked to be a part of the 'troop'. He often reprised the role he played in Herb Nurmi's debunking where he wandered onto the stage shouting 'Beryl' (Herb's wife's name)...obviously lost...He repeated that very role in subsequent debunking scripts through the years! It was good fun. Mostly, He and Ginny were always ready to join on, join in, and work with smiles on their faces. They were terrific people – I miss them."

"One thing Jim did was to follow in the footsteps for years to lead *God Bless America* after Larry Duffield died. Jim sang in choirs for years. Probably his biggest claim to fame in Rotary is his role as the wild 'Back to the Future' scientist at John Blount's District Conference back in April 1991."

"I know he built the Back to the Future time machine for John Blount's District Conference when John was District Governor – used later at Great Getaway and Lobster Feed Auction. He was song leader for Rotary meetings for years. He and Virginia were constant contributors to the Rotary Foundation and the Sebastopol Rotary Education foundation." "Jim was, as others have repeatedly said, a very sweet and kind guy."

"Jim & Virginia in Brazil at weddings of two children of a Youth Exchange student from Brazil that they hosted 40 years ago!"

"I have so many warm memories of Jim and Virginia. They helped me create Russ Cunningham's debunking into Andy

Griffith's Mayberry. We got everyone in the club to dress up exactly the way they looked back then...some even came like Jean Boal and Betty Nelson...pregnant! Virginia gave me an apron to wear that night that she made and I still treasure it. Jim and I did dictionaries together and what fun we had opening each box, taking out the books and putting our club labels in there. I was having problems with getting my mom to cooperate in planning her estate and he told me for hours how he had everything done with his children and I admired him for that. They were always the life of the party and the many anniversaries we celebrated in their home were like old memories because everybody was there. They have always been exactly what I want John and me to be like as we grow older. There was no better role model than Jim and Virginia!!! I miss you both !!! "

# APPLEKNOCKER FOR MEETING DATE AUGUST 19, 1983

## Yes, It's got JIM WISEMAN'S ROOKIE SKETCH.

### THE APPLE KNOCKER

VOLUME 25

ROTARY CLUB OF SEBASTOPOL

ISSUE 8

August 19, 1983

#### PREVIOUSLY:

Our PRESIDENT, showing his penchant for American Literary giants, stunned us with a quote from Jules Verne on achievement and proceeded down to the barnyard with his pig and duck story. ED TRIGEIRO introduced the visiting Rotarians - a brave lot. PRES. DAVE, finally figuring out the "table next to the window", couldn't find many guests. A special congratulations to us all for an attendance of 96.59 in June - keep coming to the meetings. In deference to GARY KIMES, it is a club policy position that we are not out to grab bodies but to have quality new members who will help our club grow and be a vital force in the community. All other business out of the way, our grim reaper went for the wallets of the following: BOB BLAKEY for attending a Rotary meeting on Sunday on his Alaska cruise . . . JOHN BAST for the acquisition of a white and black lettered generic car. Also helping the recovering auto and petroleum industries was DICK PELLASCINI for a semi-new silver, GM's top-of-the-line Hood Ornament . . . GARY KIMES for bringing up bodies during lunch . . . Lucky MACFARLAND for beating the odds, the horses and Safeway! What is that Italian Stallion you were driving GARY? Mister "Kiss me, I gave blood" CARRION quietly returned and submitted his \$25.00 to be the first bleeding heart. KIMES was again tapped for his Sea Serpent son, David. GUENTER MEIBERG introduced his new line of concrete fences. The fish story of the day was the SNYDER brothers, BYRON and AL. We saw you borrow your fine from AL, BY!

#### SPECIAL ANNOUNCEMENTS:

BRUCE CAMPBELL finalized our efforts for the Apple Fair.

JOHN LEWIS will have his "suitcase" night committee meeting on Tuesday.

The club will again be supporting the close-up program at Analy - so remember to help by having a student help you in your business.

Don't forget . . . the District Governor will be here September 9!

#### ROOKIE SKETCH OF THE WEEK:

JIM WISEMAN was the lucky sketch giver. He revealed he was born in Santa Rosa, New Mexico and loved the desert so much, he returned after graduating from U. C. Berkeley in Chemistry. He worked for the Westin Chemical Co. in the Mojave Desert for 24 years. Jim was located in the middle of the desert - "any direction from there was back". He worked for Stanfer Chemical in San Francisco and after 41 years, he retired. Welcome aboard, JIM!

#### THE PROGRAM:

MIKE BALDUS introduced DON WOLFE, an engineer with Hewlett Packard. His program focused on the U. S. response to Japanese technical methods. Don diffused some of the myths that have been attributed to Japan, Inc. He also praised the Japanese for managing a complex industrial climate during trying times. The Japanese have used management methods to achieve a high level of productivity and quality by using the strategic elements of manpower and efficiency. The American failure is attributed to the short-sighted "putting out fires" style of management. Not planning and lack of diversity have caused many of our industrial failures, such as the steel and automobile industries. A very informative and thought-provoking program.

Our esteemed Secretary, sketched here by BUD, is obviously checking on our attendance.

#### MISSING THE ACTION:

Blanchard, Boal, Bunch, Carlisle, Cole, Conner, Dowd, Dunn, Grift, Hallberg, Harding, Hill, Hirsch, Hogan, Holley, Kelly, LaCouture, LeDu, Nelson, Nurmi, Pagel, Parker, Rowden, Scott, Shaffer, Sharrocks, Smith, Stupfel, Thornton, Tighe, Tomei, Weinsheimer.

THE SQUEEKY WHEEL

What is value? Many times our very existence in the business world depends on our ability to determine value correctly; in products to retail... in employees ... in assets to purchase... And, quite frankly, many times our practical natures confuse value with cost and prevent us from making good judgments.

A woman dashed into a small but high priced shop of her favorite clothing designer. "Pierre," she said, "I must have a new hat that is absolutely original and I must have it now. What can you do for me?"

"Let me see," said Pierre. Pulling out a length of ribbon of a warm and glowing mottled orange, he cut it deftly and began to fold it.

Skillfully, he wove it into shape and in a few minutes, without pinning or clipping it in anyway, he had a hat for the lady.

She looked at herself in the mirror with awe, "That's marvelous, Pierre," she said, "How much?"

"Two hundred dollars madame."

"Two hundred? Isn't that rather high for a length of ribbon?"

Pierre smiled. He removed the hat and, as skillfully as he had wove it, he now unwound it. He handed the unwound length to the lady and said, "The ribbon itself, dear madame, is yours for nothing."

Value. Like beauty is it only defined in the eyes of the beholder? Maybe. But, it seems, each 'beholder' is looking for the same qualities; availability, timeliness, uniqueness, suitability, longevity... And cost. When cost. When all the elements are in perspective, we will be better able to determine the value of a ribbon vs. the value of a hat.

#### KNOW YOUR PAST PRESIDENTS:

1930-31 Harry B. Fuller. Harry was President of the Anale Savings Bank, later to become the Bank of Sonoma County. His office was located where the present bank is. He was one of those persons that originated the idea of Ives Park and prevailed on Mrs. Ives to donate the park to the City of Sebastopol.
