From the DG

DG Pat Schraven

What a wonderful trip I had to our Southern Region to visit our Clubs in the farming and coastal communities. To hear and experience some of the great work being done in these areas gave me a great sense of pride of being part of Rotary. These amazing country Rotary Clubs provide an avenue for fellowship and a great sense of purpose for the

members as they raise funds and volunteer their time to support their local Communities and beyond.

I was pleased to be a part of welcoming new members to some of these Clubs or having the honour to be there as Clubs recognised the outstanding efforts of their members by presenting them with Paul Harris Fellows.

I reflected back to when I first joined Rotary, being a new Rotarian is exciting but can also be challenging. Rotary is a complex organisation due to its size and multiple projects and functions. Having a mentor to support and guide new members will help them realise the full benefits of belonging to this amazing organisation. Mentors are able to share knowledge, skills, and life experience to guide them; it is a journey of shared discovery. So, I encourage new Rotarians to find a mentor. For Club Membership Directors there are an abundance of resources on My Rotary.

The District Conference 2022 is really coming together, I am blessed to have a great committee lead by PDG Robyn Yates. The venue for the conference is the Gary Holland Centre in Rockingham, lunch and tea breaks will be held in the centre and the District Governors Dinner will be held at the Hotel Clipper – dress to impress as we will have the red carpet laid out to welcome Rotarians and partners.

Sunday 24th October 2021 – World Polio Day – around Australia Rotarians have been raising awareness and much needed funds to continue the good work we have done in our pursuit to eradicate polio. What did your Club do? Share some photos with us so we can publish them in the next DG newsletter.

Be safe and well and I look forward to hearing from you with updates on your projects.

Youth Photographic Competition

By Kay Phipps

Boy Girl leaning on tree - 1st place

Hand Final - 2nd place

Baldivis Rotary recently held its second Youth Photographic Competition, in partnership with Stockland Baldivis. Students from years 3 to 10 were invited to submit free entries in a number of different categories.

The results were amazing and it was very difficult to choose winners and placegetters. With the help of one of our members, judging was complete and the club held a Presentation of Prizes on Monday, 20th September. The students and their parents were invited to attend and around 45 were present on the night.

This project was generated out of lockdown, initially through DG Pat and her previous club of Mandurah Districts. It enables children of all ability levels to showcase their talents and creativity and offers them an opportunity to display their work in a public space. Stockland Baldivis has placed the winning photographs on permanent display outside the Centre Management office, where everyone can view them. The support we have received from Stockland Baldivis has been wonderful and we are working towards continuing the project on an annual basis. ❖

Applecross Rotary Jacaranda Festival just weeks away!!

The 27th of November will see one of Rotary District 9465 premier community events continue to build its reputation with the 21st annual Applecross Jacaranda Festival being held in Ardross st, Applecross.

With fingers crossed for no late appearance of the common foe in Covid, we can expect around 12-15,000 in attendance to be part of an outstanding day of Street activities.... Over 150 stalls offering quality 'something for everyone', lots of food choices, kids activities and a full day of on-stage entertainment.

Applecross Village takes on a whole new facade, with local businesses joining in with the festivities.

With all the planning now in place, Grants gratefully received from Lottery West and our City of Melville, the project team enter the busy last weeks of final scheduling for the over 100 volunteers needed across the day.

As anyone who has involvement in large community events well knows, it is attention to every final detail that makes for success, and ensures that all stakeholders are keen to line up again in 2022.

Certainly from humble beginnings in year 2000, the JacFest has come a long way and is deserving of the interest and support it draws. For example, apart from the Grants received, generous Club Sponsors also engage in the day, and work with us for the best possible outcome.

The project team held a Sundowner on the 30th of September with local business owners, at which our local MLA Kim Giddens presented the \$15,000 Lottery West Grant. She thanked Applecross Rotary for its ongoing commitment to the cause.

City of Melville Mayor, Hon George Gear, JP, also spoke highly of the role Applecross Rotary, and the Festival, play in our community.

Long term Project team and Applecross Rotary Member Chris Whelan outlined the tremendous voluntary support that we draw on locally, and highlighted the fact that all groups who support the day, gain financially for their involvement.

A true win win outcome!

~ AG Kenn Williams

ROTARY & INTERPLAST A GOOD NEWS STORY

Fifteen-year-old Rashmi dreams of being a doctor. When Interplast last met the Sri Lankan schoolgirl, she was busy studying for her Ordinary-Level examinations, undertaken in the final two years of high school.

Aiming to enrol in a biology stream for her higher studies, Rashmi's goal was to become a doctor, and help others, as she has been helped over so many years.

Born with a congenital facial dysmorphic condition, Rashmi is certainly no stranger to the medical profession. Since her early childhood, the brave schoolgirl has undergone multiple reconstructive surgeries performed by local surgeons in Sri Lanka.

Rashmi and her Mum, Ruhi.

Rashmi's mother Ruhi was told by another patient of the work of the Interplast team at the National Hospital in the country's capital, Colombo.

Dropping her two siblings off at school early, Rashmi travelled with her mother for the two-hour round trip from Kalutara in Sri Lanka's Western Province, where the family lives, to reach Colombo's National Hospital and meet the Interplast team.

Led by Interplast volunteer surgeon Dr Charles Davis, with assistance from a local surgeon, Rashmi successfully underwent an eye socket and nasal reconstruction, the fourth procedure in her surgical journey.

Ruhi was pleased with the significant improvement in her daughter's condition, noting that Rashmi's confidence and self-esteem had improved and that she was doing well at school. She was no longer subjected to any stigma or negative behaviour, nor made to feel different because of her condition.

Grateful for the opportunity for her daughter to undergo the surgery, Ruhi offered her blessings to the Interplast team, saying she hoped other people in her nation with similar conditions to Rashmi's would have the same chance as her daughter.

Ruhi believes that awareness programs are critical to enable others living in peripheral areas like her family, to become aware of the opportunity Interplast could provide, thereby reaching more people in need.

Following the surgery, Dr Davis recommended to the family that upon turning 18, Rashmi would need to undergo further surgery, something both she and her family welcomed.

Rashmi with her Mum and her doctor.

Rashmi is hoping that the Interplast team will soon return to complete her treatment, enabling her to fully focus on her academic pursuits, and to give back to others.

Rotary donations have contributed to training Sri Lankan surgeons, so that patients like Rashmi can live a life free from disfigurement, and stigma. Donations are especially welcome during the pandemic, and will help train surgeons remotely.

36th BOULDER ROTARY ONLINE RADIO AUCTION 2021

The Rotary Club of Boulder would like to welcome you to this year's Online Radio Auction.

This will be our 36th Auction and because of the generosity of industry, business, and the people of the Goldfields over the past 35 years the Rotary Club of Boulder has raised over \$2.4 million and helped over 250 local organisations with all money raised locally, stays locally.

Sponsorship is a vitally important part of the Online Radio Auction fundraising effort, and you can help by taking up a sponsorship package. Packages available for this year's event include Gold \$5,000+, Silver \$2,000+ and Nickel \$1,000+.

If you are unable to help with sponsorship, we will always appreciate the donation of items for our Auction and your attendance our Launch Party which will be held on Friday 29th October 2021 at the Overland Hotel which includes a High Roller and Silent Auctions of selected items from our Donors.

The Radio Auction this year will take place on the weekend of 29th – 31st October. Launch Party on Friday 29th and the Community Carnival on Sunday 31st.

Our Major beneficiary this year is the Rotary Club of Boulder Perth Children's Hospital Goldfields Family Assistance Trust Fund, which helps local families of sick children with travel, accommodation and living expenses during time away from home for medical treatment. Due to Covid our fundraising for this fund has been limited so we are contributing \$25,000 to the fund, as well as running a raffle which will raise a further \$25,000 taking the total donation to the fund this year to \$50,000.

Our community beneficiaries for this year's Auction are,
VEILS OF GOLD BELLY DANCERS, EASTERN GOLDFIELDS YOUTHCARE, KALGOORLIE BOULDER URBAN LANDCARE GROUP, EAST KALGOORLIE PRIMARY SCHOOL, GOLDFIELDS REGIONAL TOY LIBRARY, KALGOORLIE PRIMARY SCHOOL, GOLDFIELDS INCLUSIVE SPORTS, MILLENIUM KIDS, BOULDER SCOUT GROUP, KALGOORLIE BOULDER COMMUNITY FAIR, INNER WHEEL KALGOORLIE, EMPOWERING PEOPLE IN COMMUNITIES – CHRISTMAS IN THE PARK, EASTERN GOLDFIELDS HISTORICAL SOCIETY.

Funds from this year's Auction will also support our own Rotary Projects in the Goldfields.
ROTARY CLUB OF BOULDER PROJECTS – HIGH SCHOOL SCHOLARSHIPS, GOLDFIELDS FOOTBALL LEAGUE COLTS CARNIVAL, DEFIBRILLATOR PROJECT, RYLA, RYPEN, HANDICAMP, NATIONAL YOUTH SCIENCE FORUM, BBQ TRAILER PROJECT.

If you would like to know more about the projects we are supporting, or any of our Rotary Projects, please feel free to contact us directly.

Whether or not you can find it in your budget to support this year, we look forward to hearing from you. If you would like to discuss this further, please do not hesitate to contact myself directly.

ROTARIANS AGAINST MALARIA (RAM)

RAM is a national activity of RAWCS (registered charity) - Rotary Australia World Community Service Ltd and is managed by a network of Rotarians with a RAM representative in each of the nineteen (19) Rotary Districts in Australia. The network is managed by a National Manager and the National RAM Committee.

RAM supports projects that aim to control and ultimately eliminate malaria and works with government health programs in our partner countries, and follows the recommended World Health Organisation (WHO) guidelines on the best strategies for control and elimination of malaria. RAM Australia volunteers develop and manage projects, and administer funds.

Through the facilities provided by RAWCS Ltd, RAM facilitates opportunities for Rotarians and Rotaractors, especially those with expertise in medical science and project governance, to be involved in malaria projects, and to visit in-country programs. RAM also provides information and resources on the latest research and development in malaria elimination.

RAM raises funds to support malaria elimination in five partner countries, these countries are: Papua New Guinea (RAM PNG is a partner of RAM Australia), Solomon Islands (RAM SI is also partners of RAM Australia), Vanuatu, Timor Leste and the adjoining Indonesian province of Nusa Tenggara Timor (Indonesia).

Why Malaria?

Malaria has killed and debilitated humans since history began. Though there have been impressive reductions in the incidence of both disease and death in this century, with a halving of cases and deaths since 2000, malaria remains a disease that causes over 400,000 fatalities every year—many of them among small children—and imposes a heavy burden on the health and wellbeing of some 229 million people.

The heaviest toll caused by malaria is among poorer communities, mostly in Africa and in other tropical regions. Malaria reflects the health inequality between developed and developing countries.

Under the Millennium Development Goals, however, considerable progress was made in preventing, diagnosing and treating malaria. As a result, deaths have fallen by 60 percent. Now, under the ambitious Sustainable Development Goals, we are aiming to reduce malaria cases and deaths by a further 90 percent by 2030.

What do we do?

Most of the projects RAM supports are in the area of vector control ie reducing the mosquito population and the opportunity for mosquitos to bite humans and thus spread the malaria parasite. The main RAM expenditures are for the provision and distribution of Long Lasting Insecticide-treated Nets (LLINs); Indoor Residual Spraying (IRS); environmental improvements such as through the Healthy Villages project.

We also train community health volunteers to participate in mass LLINs distribution and malaria education.

Similar to COVID-19, prevention of local transmission of malaria is critical to malaria elimination.

RAM focus is to prevent, test, treat and track malaria, including capacity building of local government staff and community health volunteers, in line with World Health Organisation (WHO) Global Technical Strategy (GTS) for Malaria 2016 - 2030 and recent updates.

RAM fundraises and donations come from individuals, from Rotary Clubs, and from Rotary Districts. Several District Governors' Partners have adopted RAM as their project which have been helpful in fundraising for the much needed support in our partner countries. As we journey through difficult economic times in Australia where most of our donations are from, RAM Australia is forced to look elsewhere such as applying for grants from and external to Rotary, to fund activities in partner countries.

In the last Rotary Year, RAM funded two projects (Vanuatu and Papua New Guinea) to a total value of \$132,000.

In addition, RAM assisted two Rotary Clubs (D9830 and D9550) to complete and report on a USD251,334 Rotary Global Grant project for prevention of re-establishment of malaria in Timor Leste. In 2021-21 year, RAM successfully assisted four (4) Rotary Clubs to secure Rotary Global Grants to a total value of AUD514,865 (see Table below).

Four (4) Rotary Global Grants for RAM PARTNER COUNTRIES YR 2021-22

No	Country	Project Activities	Grant Value USD	
1	Vanuatu with DDFs from: NZ9910, 9790, 9800, 9810, 9820. No Rotary Club (RC) donations.	2021: Equip and train the National Indoor Residual Spraying Team	111,024	✓
2	New Ireland Province, Papua New Guinea. DDFs from 9600. Donations from 3 RC	2021: Establish outreach response teams to provide G6PD point-of-care testing, to facilitate safe treatment of Plasmodium Vivax cases with Primaquine.	49,272	✓
3	Timor Leste with DDFs from 9550, 9650, 9800, 9570.	2021-2022: Supply long-lasting insecticidal nets (LLINs), Training of Community Health Volunteers, Printing malaria information for communities and health facilities.	107,000	✓
4	West Timor (NTT Province, Indonesia) with DDFs from: 3420, 9830, 9700, 9455, 9456. Donations from 19 RC in Indonesia and 2 RC (Hillarys and Queanbeyan).	2021: Cross border malaria elimination. Stratification training to map risks for malaria; provide 5,000 LLINs, and 10,000 rapid diagnostic test kits. Supply flipcharts for community education	125,350	✓
		TOTAL:	392,646	
		AUD	514,865	

RAM Australia will be hosting a Virtual Conference on 13 and 14 November 2021, via Zoom. The registration fee is \$50. There will be wide range of topics, from malaria vaccines, to how we can improve cooperation to finally eliminate malaria, and to updates on progress towards malaria elimination in our partner countries.

RAM invites Rotary District 9465 Governor and Clubs President to promote RAM Conference via District and Clubs Newsletters and Websites.
