

2024-02.19-03.03

After a really exited weekend two weeks ago I had two really exiting weeks ahead. And that's the story about how they turned out. :-)

19.02.2024 Monday

I started into this week with a very busy school day. A day full of all my subjects Math, Global Politics, English, Physics, Spanish and Film. Here is a link to our lates film project. We had to film a 1-minute Film-Noirreel. [A Touch of Virus.mp4](#)

20.02.2024 Tuseday

I'm always going to the Frematle Seascout Venturermeetings on Tuesdayevenings, were we are always having a lot of fun. This time I finally got invested from the Fremantle Sea Scout and I'm now officially and Australian scout. The Investigation to scouting is the start mark of your time in scouting, so for me it was symbolic for starting scouts in Australia. Normally that is the time when you get your scarf and your Group, District, Australian and world scouting Badge. I just got all my badges, because on Saturday was a Presentationday with the city-representors.

21.02.2024 Wednesday

I had to choose my subject for my German A-Levels, so I had a longer call with my parents and we came up with an good end solution, which might change a little bit. In Germany we have to do three written final Exams and two spoken ones. I chose to do Politics as my third written Exam as we are required to do German and Math written. For my orals I of course chose English and as second one geography, but I might change this to Physics. I also chose to do biophysics in the year 12, so I might be able to focus on that in my finals.

22.02.2024 Thursday

On the afternoon I had a lot of fun playing with my two youngest Hostsister Leandra, who is six and Artemis, who is two years old. It is always a lot of fun and I really enjoy hanging out and entertaining them.

23.02.2024 Friday

On Friday I went with Ken Williams to the Birthday Party of Paul Harris. ;-)
It was a great event to connect with new Persons from a lot of clubs south the River and catch up with the Applecross Rotarians, who were there. It was a great event to celebrate the 119th Birthday of Rotary within. A great Rotarian environment with a lot of great people.

24.02.2024 Saturday

I had a Waterpolo game against Wesley College in the morning, which we unfortunately lost.

As I already mentioned, we had a Presentation with the Scout. It was a great feeling to get my 1st Fremantle Sea Scout Scarf in front of most of the mebers, parents and the city council.
NOW I'M AN AUSSI SCOUT! :-)

We presented all our Skills, from cooking to Sailing everyone had fun oing some of their favorite activities and show it to the parents and friends of scouting. It was a great Day and I noted all the inspiring things down, which I can do back home with my Scout group.

25.02.2024 Sunday

Because my Hostsisters Aliana and Leadra are taking Highland Dance Lesson by their Mother Aurian, we went to a very successful highland Dance competition. I had a great time supporting my sisters and talking shop with my hostdad Tom. After this we went to an outside concert in Fremalte, which was really good.

26.02.2024 Monday

After a great school day, I meet with Ian Fairnie, Graeme Fardon and John Kelly to get into the more detailed planning of our adventure Bibbulmuntrack. I would say our meeting was really successful and I'm really excited to finally go and experience all this.

27.02.2024 Tuseday

During the Venturer-Scout meeting my Sailingbuddy Hunter and I prepared our Pacer for the 30hr Scout Sailingevent, the Swanabout. We are really keen to give our best during the Race and finish in first Place. That's why we installed a Kite on the Boat, checked our Sails and sheets and put our start number 10 on the Pacer, to prepared for the really important race. :-P

28.02.2024 Wednesday

We made a personality Test in school, which was quite interesting. It came out, that my personality type is Logistician, like Natalie Portman and George Washington.

29.02.2024 Thursday

On Thursday was my last school day for the week, because Scotch has a longer Long weekend, so all the Boarders can spend some time with their Families far away.

01.03.2024 Friday

I worked on all the important things for the Bibbulmun track like the Equipmentlist and the final timetable. I forwarded all this information to the other Exchangestudent, so that we are going to be able to book all the necessary things. And I went to the European Handball Training at UWA in the afternoon.

And because it was my Sister Amelie's 19th Birthday I had to stay Up a little bit to give her a call after her school day. It was really good to call my Family once in a while.

02.03.2024 Saturday

We spend the Afternoon at the scout hall fixing and repairing a lot of things on the boats so we can sail without thinking about all the problems. So I choose to rebuild one of the broken motor-attach timber blocks, so we are not going to lose our emergency-motor while we are sailing. After the dinner we had a look at a lot of pictures from me any my life back in Germany, which was really funny.

03.03.2024 Sunday

I managed to answer a couple questions all the other inbounds had about the Bibbulmun track, before I started to write my monthly report for my Districtofficer Norm de Grussa. In the afternoon I finish this report and then went down to the Scouthall, to finish off my project from Saturday.
