

Valentins Report 2024-03.11-04.07

G'Day, Graeme, Elis and me just got on the road to our 5 Days Bibbulmun-Track adventure in and Near Albany. We are all highly motivated and the weather is looking good for a Hikingtrip. Thank you for you all to make this happen and a very big Thank to John Kelly who is supporting us all the time.

Housebreakfast

Last Tuesday of the Term and my House Teacher Mr. Jesson, who came in the beginning of the year from Trinity College to Scotch organized a Breakfast for us. So I started early in the morning with all my other volunteering Housemates to cook a lot of eggs and Bacon the BBQ. We had to cook breakfast for up to 70 people who are in Shearhouse like student, mentors and other teacher. Firstly we started with the bacon and managed to get most of the thousand slices perfectly coloured, which we were really proud of. Now the eggs had their turn and were flip once to get a typical aussie sunny-side-down BBQ Egg. This variation of an Egg is not that famous in Germany. Germans like their eggs softly cooked with a slightly runny middle. ;-p What a great end of the Term.

Fremantle Street Art festival

Over the Easter weekend my Family and went down to the Freo Street Festival, where we were fantastic Entertained from all the performers. My Sisters liked Afuma five Performer from Togo and the Bubble-witches the most. It was impressive what the performers could do with their stilts, jumping, nearly falling and therefore shocking us all and making Handstands with the nearly five-meter-long wooden stilts on. And of course, the Bubbles which made everyone smile the whole time.

Perth Makers Market

Another amazing and super fun Market in Perth. This time with great temperatures and a good amount of people donating for good. Again it was a great day which started with a pick-Up from Kenn Williams in the Morning at 6:20a.m. and ended with a lift back home from Graeme after packing-up and away at 4:30p.m. I spend sometime filming a little promoting video for Rotary on the Market which I enjoyed doing.

Sailing with Graeme and Gerry

Last Thursday I got the chance again to sail with one of Graeme's Sailingmates, Rotarian Gerry from Rotary Club of Mill Point on a Foundation36 which was a fun experience

Camping + Birthday

Over my Birthday weekend my Family and I went with a couple of other Families down South to Preston Beach and camped and celebrated my Birthday there. We packed all our Gear on Friday in the Car and drove down to the camping area near Preston Beach. After a quick set-up we felt quite quickly to bed after we've eaten dinner. On Saturday I got waken up with a lovely Happy Birthday Song,. After the Breakfast everyone surprised me on our campsite with cake and super cool presents. I got the chance to hear Aussis singing Happy Birthday in German which was totally amazing.

With a got sugar-shock we all back our stuff for the beach and went off. We lowered the airpresur in the tire and went for a little 4WD on the Beach. The Beaches are so adorable hear in Australia. Beautiful Birthday on the beach with great company. On Sunday we packed down and went back home.

Bibb-Track

Back home I straight started to finalise my backpack for the Bibbulmun track. And now we are on the way to start walking and we are all very excited.

Cheers
Valentin
