

Rotary is partnering with Fair Future Foundation and Lab Without Walls to raise \$125,000, to continue a vital Water Connections and Malaria Prevention Project in East Sumba. *Sumba is located in the East Nusa Tenggara Province, Indonesia.*

You can save lives, and enable these villagers to obtain water, sanitation and eradicate malaria.

Fair Future Foundation, the only NGO in East Sumba doing this work, collaborates with the local Regency Government.

- High number of people infected with malaria in East Sumba.
- Little knowledge about malaria infection and how to prevent it.
- Lack of clean water and sanitation facilities; some villagers are still hand-carting water.
- Extensive poor living conditions, limited access to medical assistance and little health education.

Ferro-cement water tanks

M - F toilets with septic system

Teaching basic medical education

Donations can be sent to:- Reference Sumba and your name. Thanks.
