## Description of Project

(Give a brief outline of project and scope)

*(Example Only – remove from your application) Teen Mentoring Program:*

*We were all young once and we all know that some kids adjust to adolescence easier than others.*

*Our mentoring program helps elementary and middle school age children that might not have the support system at home to turn to when things get hard for them. Without a network of support, many of these children develop under-achieving behaviours and some of them follow paths of self-destruction that can include drugs, alcohol and criminal activity*

*More description of the program goes here*
