Bulletin

No 3. 15th July 2019

Your Bulletin this week is a little different because I wasn't present at the meeting so had no notes to refer to.

Last February I announced that Gladys and I now resided in a 'match Box by the sea' The reason for missing last Monday's meeting was because we attended our first 'Strata' meeting for the Azure apartment complex in which we now live.

Very enlightening to now learn a little about how the 'nuts and bolts' of being involved and living within that environment, fortunately we have the services of a very experienced Strata Manager who will guide us through the maze.

Rotary brings together the kind of people who step forward to take on important issues for local communities worldwide. Rotary members hail from a range of professional backgrounds; doctors, artists, small business owners, teachers and executives all call themselves Rotarians. Rotary connects these unique perspectives, and helps leverage its members' expertise to improve lives everywhere.

From Haiti and Greenland to Nigeria and Singapore, Rotary unites a truly diverse set of leaders from across the world. Currently, the largest number of clubs comes from the United States, India, Japan and Brazil.

The fastest growing Rotary regions include Southeast Asia and Africa. Each year, Rotary members invest more than \$200 million and 16 million volunteer hours to promote peace, fight disease, provide clean water, save mothers and children, support education, and grow local economies.

President Report

In keeping with my goals of having no guest speakers at every meeting tonight was a “Talkfest”. The idea is to allow us to get to know each other more and to discuss issues affecting the club or meetings.

Included in the first night at the helm was an opportunity to place a dot on a map of the world indicating where each of us was born.

Of those that went dotty, 7 were born overseas and 7 claiming Australian heritage.

The most unusual location was between north and south America but who that was is a mystery as there is no name next to the dot. Will we discover who it is? More next week.

Topics tonight ranged from attendance at meetings, guest speaker bookings, bumper sticker slogans, ideas for future meetings, RIDE participation or not, DRAFT Board Minutes and dessert!!

Our Secretary and President divvying up the raffle spoils.
(alarm bells ringing)

A Judicial Enquiry at least, if not a Royal Commission should be demanded.

(Only joking)

President 2020/21

PE John Iriks

Board meeting 11th July 2019

Club Service report. John Iriks

- 1 Working with PP Eric Blogg on a Club Members Matrix
- 2 Will introduce Club Service Committee meetings inviting Membership Chair Ed Samut to consider our social calendar for outings such as Car rally, guess who's coming to dinner, progressive dinner, Christmas in the park or alternative function and other social functions primarily designed to get us and guests together, rather than raise funds.
- 3 Working on Club administration to plan Annual General Meeting for date in December now that constitution has changed to allow both the AGM for acceptance of financial report and General meeting for the ratification of Board positions to be held at the same meeting before 31st December.
- 4 Investigate the use of Google Calendars as an alternative to the club calendar.
- 5 Attadale Club, 30 years Women in Rotary, Thompsons, Iriks and Sharkey's attending.

Cyrus Vince, accompanied by his parents Kylie and Matt, joined us to learn more about Rotary and Youth Exchange. They were a lot of fun and grateful of the opportunity given to Cyrus.

Fine Session: Sgt. Cyril Bennett

Sorry no notes taken.

In a Maine restaurant: Open seven days a week and weekends.

In a New York medical building: Mental Health Prevention Center.

In a New York restaurant: Customers who find our waitresses rude ought to see the manager.

Maternity clothes shop: We are open on Labor Day.

On a butcher's window: Let me meat your needs.

Mother Superior called all the nuns together and said to them, 'I must tell you all something. We have a case of gonorrhoea in the convent.'
'Thank God,' said an elderly nun at the back. 'I'm so tired of Chardonnay.'

A Polish immigrant went to the DMV to apply for a driver's license. First, of course, he had to take an eye sight test. The optician showed him a card with the letters

'C Z W I X N O S T A C Z.'

'Can you read this?' the optician asked.

'Read it?' the Polish guy replied, 'I know the guy.'

A Man Utd fan dies on match day and goes to heaven in his Man Utd shirt. He knocks on the old pearly gates and out walks St. Peter in a Leeds scarf.

"Hello mate," says St. Peter, "I'm sorry, no Man Utd fans in heaven."

"What?" Exclaims the man, astonished.

"You heard, no Man Utd fans."

"But, but, but, I've been a good man," replies the Man Utd supporter.

"Oh really," says St. Peter. "What have you done, then?"

"Well," said the guy, "Three weeks before I died, I gave 10 pounds to the starving children in Africa."

"Oh," says St. Peter. "Anything else?"

"Well, two weeks before I died I also gave 10 pounds to the homeless."

"Hmmm. Anything else?"

"Yeah. A week before I died I gave 10 pounds to the Albanian orphans."

"Okay," said St. Peter, "You wait here a minute while I have a word with the governor."

Ten minutes pass before St. Peter returns. He looks the bloke in the eye and says, "I've had a word with God and he agrees with me. Here's your thirty quid back, now sod off."

Polio This Week 10th July 2019

□ A circulating vaccine-derived poliovirus type 2 (cVDPV2) has been confirmed in China.

It is genetically linked to a VDPV2 isolated from an environmental sample from Xinjiang province, collected on 18 April 2018.

WHO is continuing to evaluate the situation and stands ready to support the ongoing investigation and risk assessment by national authorities.

□ Summary of new viruses this week:

Pakistan— nine wild poliovirus type 1 (WPV1) cases and 3 WPV1-positive environmental samples.

Angola— one circulating vaccine-derived poliovirus (cVDPV2) case.

China – one cVDPV2 case.

A man owned a small farm in the Southwest.

Fair Work WA claimed he was not paying proper wages to his help and sent an inspector out to interview him.

"I need a list of your employees and how much you pay them," demanded the inspector.

"Well," replied the farmer, "there's my farm hand who's been with me for 3 years. I pay him \$1200 a week plus free room and board.

The cook has been here for 18 months, and I pay her \$1000 per week plus free room and board.

Then there's the half-wit who works about 18 hours every day and does about 90% of all the work around here.

He makes about \$100 per week, pays his own room and board, and I buy him a bottle of scotch most Saturday night's.

He also sleeps with my wife occasionally."

"That's the guy I want to talk to...the half-wit," said the inspector.

"That would be me," replied the farmer.

The human mind, once stretched by a new idea,

never returns to it's original state.

Rotary

Club of Attadale

Celebrates 30 years of

Women in Rotary

All Rotarians and friends are invited to a special Dinner Meeting with esteemed guest speaker:

Tompkins on Swan, Alfred Cove

Cost of \$26 includes main course, tea & coffee and cakes.
Drinks at bar prices.

Please book by 10.00pm, Thursday, July 25, at:
<https://www.trybooking.com.au/BDMQU>

Tomato is world's most popular fruit

The tomato is the **world's most popular fruit**. And yes, just like the brinjal and the pumpkin, botanically speaking it is a fruit, not a vegetable.

More than 60 million tons of tomatoes are produced per year, 16 million tons more than the second most popular fruit, the banana. Apples are the third most popular (36 million tons), then oranges (34 million tons) and watermelons (22 million tons).

Tomatoes were first cultivated in 700 AD by Aztecs and Incas. Explorers returning from Mexico introduced the tomato into Europe, where it was first mentioned in 1556.

The French called it "the **apple of love**," the Germans "the **apple of paradise**."

Can openers invented 48 years after cans

Cans were opened with a hammer and chisel before the advent of can openers.

The tin canister, or can, was invented in 1810 by a Londoner, Peter Durand.

The year before, French confectioner, Nicolas Appert, had introduced the method of canning food (as it became known) by sealing the food tightly inside a glass bottle or jar and then heating it.

He could not explain why the food stayed fresh but his bright idea won him the 12,000-francs prize that Napoleon offered in 1795 for preserving food.

Durand supplied the Royal Navy with canned heat-preserved food while Appert would help Napoleon's army march on its stomach.

Tin canning was not widely adopted until 1846, when a method was invented to increase can production from 6 in an hour to 60. Still, there were no can openers yet and the products labels would read: "cut around on the top near to outer edge with a chisel and hammer."

Can opener

The can opener was invented in 1858 by American Ezra Wamnet. There also is a claim that Englishman Robert Yeates invented the can opener in 1855. But the can opener did not become popular until, ten years later, it was given away for free with canned beef. (Canned pet food was introduced by James Spratt in 1865.)

The well-known wheel-style opener was invented in 1925.

Beer in a can was launched in 1935.

The easy-open can lid was invented by Ermal Cleon Fraze in 1959.
