Bulletin
No 04 23rd July 2018

We welcomed Kristy Grantham and Willow Corless from SMYL Community Services.

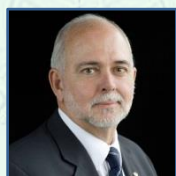

We also welcomed along Bill Rowe for a second visit, I believe a 'White Card' may be in the offing.

President Stephen is promoting the upcoming online 'Club Survey' encouraging members to take part, more details shortly.

In 1985, Rotary launched its **PolioPlus** program, the first initiative to tackle global polio eradication through the mass vaccination of children.

Rotary has contributed more than \$1.7 billion and countless volunteer hours to immunize more than 2.5 billion children in 122 countries.

In addition, Rotary's advocacy efforts have played a role in decisions by donor governments to contribute more than \$7.2 billion to the effort.

President Report

Club Survey:

Questions are being developed and fleshed out. Need to try keep questions short and with short answers (preferable Yes or No).

Nothing is taboo, and we are trying to cover the full spectrum of the club, membership and its activities.

Other clubs have chosen to do away with them, so some questions will include:

Sergeants Session – Yes/No?

Grace – Yes /No?

National Anthem Yes/No?

Interest in Fortnightly Meetings Yes/No?

This is NOT to make the decision on this subject, but rather to gauge whether the members are 'Open' to the idea. If the answer is Yes, then a properly structured discussion will need to be arranged, prior to a formal vote.

The purpose of the survey is to collect the 'feelings' of all the members on all aspects of the club. We need to know where we are failing, where we could do better, how we can engage members and also where we are going well.

The desired outcome is to have a better understanding of what the members expect from the club and to set the direction for the club.

There is a 'spike' in the process, as I have just been advised that the tool that we were going to use "Survey Monkey", is only FREE for 10 questions.

We may have to look at other alternatives to "Survey Monkey" that will allow for the easy collection of the data whilst preserving anonymity.

Keys: Mike Metcalf has been busy on setting up Keyed-alike padlocks for various items at the clubhouse. The keys will currently unlock the padlocks at the rear shed, the large white trailer and the front gate.

Keys were issued to members that required them, as well as to Inner Wheel who meet at our clubrooms.

Thank you for your efforts Mike, it will make appropriate access much easier going forward.

Port: In keeping with the tradition of a bottle of port for attendance over 90%, President Stephen has provided a bottle for the evening.

I think we live in a world where the most important thing is daily life: sharing a space with your family, making meals, being with your people. It's not only the idea of privacy, it's the beauty of the moment, at a time in the world when everything goes really fast - too fast.

Guest Speakers: **Christy Grantham** & **Willow Corless** from **SMYL**

SMYL CC is an Independent, non-government Curriculum and Re-engagement in Education (CARE) school in Rockingham, WA, offering a creative, personalised, co-educational learning program to students in years 9-12.

Christy first talked about the services offered by SMYL in the Rockingham/Kwinana area, but her main focus was to be on a program called ParentsNext.

ParentsNext helps parents with children under 6 to plan and prepare for employment by the time their children go to school. It now operates in all non-remote areas of Australia.

ParentsNext providers work with parents to help them set education and employment goals, develop a pathway to achieve their goals and link them to services and activities in the local community.

ParentsNext has been operating in 10 locations since April 2016.

On 2 July 2018, ParentsNext started operating in all non-remote areas of Australia.

ParentsNext participants get help to:

- identify education and employment goals
- develop a pathway to achieve their goals
- combine preparing for work with parenting responsibilities
- access activities and services in the local community.

Participants in the Intensive Stream may be able to access a range of other support including a participation fund, wage subsidies and relocation assistance.

Who is eligible?

Parents may have to participate in ParentsNext if they have:

- received Parenting Payment for the last six months
- not had employment earnings during this period, and
- a child aged under six years.

Centrelink will contact parents who need to participate in ParentsNext and connect them to a local provider.

Parents who receive Parenting Payment and have a child under six years can volunteer for ParentsNext if they live in an Intensive Stream location.

You can get more information about [ParentsNext](#) on the Department of Jobs and Small Business website.

What a remarkable picture, apologies if I've infringed anyone's copyright

A woman is in bed with her lover, who also happens to be her husband's best friend.

They make love for hours and, afterwards, while they're just lying there, the phone rings. Since it's the woman's house, she picks up the receiver. The best friend listens, only hearing her side of the conversation:

"Hello? Oh, hi... I'm so glad that you called... Really? That's wonderful.... Well, I'm happy to hear you're having such a great time... Oh, that sounds terrific... Thanks. Okay. Bye bye."

She hangs up the telephone and her lover asks, "Who was that?"

"Oh" she replies, "That was my husband telling me all about the wonderful time he's having on his fishing trip with you."

A young executive was leaving the office at 6pm when he found the CEO (Chief Executive Officer) standing in front of a shredder with a piece of paper in hand.

"Listen," said the CEO, "this is important, and my secretary has left. Can you make this thing work?"

"Certainly," said the young executive. He turned the machine on, inserted the paper, and pressed the start button.

"Excellent, excellent!" said the CEO as his paper disappeared inside the machine. "I just need one copy."

If you think talk is cheap, try hiring a lawyer

Mahatma Gandhi, as you know, walked barefoot most of the time, which produced an impressive set of calluses on his feet. He also ate very little, which made him rather frail and with his odd diet, he suffered from bad breath. This made himwhat? (Oh, man, this is so bad, it's good) A super callused fragile mystic hexed by halitosis.
