Meets Monday

At Rotary Hall

Brownell Crescent, Medina

Visitors always welcome

Greetings from the Stand-In Bulletin Editor,
Tonight's meeting was one with a difference – visit to the Darius Wells Library, followed by dinner at the Admiral Hotel. Our guide Gerard was extremely helpful and informative about the range of services available at the library. (However, no doubt the age-old problem of losing one's library card will continue to exist!). It was quite a thrill to see a large photo of ourselves near the entrance of the library which hopefully will help raise our profile within the community.
Dinner at the Admiral Hotel provided great fellowship for everyone. A couple of points worth noting for future reference:

- On Monday nights the hotel offers a \$15 curry special (three choices available)
- Kids eat free on Monday nights.

Congratulations to Bob and Wendy on their 13th Wedding Anniversary which they celebrated with us on Monday. Our thoughts go to Wendy as she had to depart for Melbourne later that evening to be with daughter Pippa who is suffering complications following the birth of her third child. Best wishes to Pippa for a speedy recovery.
On Monday 27 October we will be conducting the Four-Way Test Speech Competition heats at our club, thanks to the cooperation of Fremantle and Rossmoyne Clubs who have been willing to "share" their students. Partners are welcome to attend. The plan is for us to conduct meal and general business, and then commence the speeches at 7.30pm.

ROTARY'S WHEEL EMBLEM

A wheel has been the symbol of Rotary since our earliest days. The first design was made by Chicago Rotarian Montague Bear, an engraver who drew a simple wagon wheel, with a few lines to show dust and motion. The wheel was said to illustrate "Civilization and Movement." Most of the early clubs had some form of wagon wheel on their publications and letterheads. Finally, in 1922, it was decided that all Rotary clubs should adopt a single design as the exclusive emblem of Rotarians. Thus, in 1923, the present gear wheel, with 24 cogs and six spokes was adopted by the "Rotary International Association." A group of engineers advised that the geared wheel was mechanically unsound and would not work without a "keyway" in the center of the gear to attach it to a power shaft. So, in 1923 the keyway was added and the design which we now know was formally adopted as the official Rotary International emblem. <http://www.icufr.org/abc/abc01.htm>
