Bulletin

No 41 10th June 2019.

With the current Rotary Year drawing to a close we start to reflect on our years achievements, some inevitable disappointments, but at the end of the day we are all volunteers with members contributing on a level that suits their level of capability and or enthusiasm.

We acknowledge with great respect those members that contribute with 'above and beyond' energy that leaves a lot us for dead.

Unfortunately we are about to loose one of those people that undeniably falls into that category, I am referring to Rtn PHF Michael Metcalf, Michael was originally sponsored by PP Max Bird and joined our club in September 2013. Michael established Long Term Self Storage located in Medina into a very successful business. From the outset Michael was always going to be a 'do-er' he quickly established himself into the person the club asked if anything was to fixed, made or organised. Michael has excelled at anything he has taken on. He has recently completed the sale of his business and intends to move on with partner Lee to to a small acre property in our South West.

While we are all very sorry to see Michael and Lee move away we send with them our fondest regards and very best wishes in pursuit of their retirement dreams. Michael wishes to continue his community work wherever he and Lee settle, some Rotary Club or Community Organisation is about to inherit a gem.

Polio This Week: 5th June 2019

This week the world's largest conference on gender equality and the health, rights, and wellbeing of girls and women is happening in Vancouver, Canada. Women are truly delivering a polio-free world. The GPEI proudly recognizes women's valuable contributions in the fight against polio

In Papua New Guinea, a GPEI Outbreak Response Assessment reviewed the impact of current outbreak response and concluded that overall strong response had been implemented. Commending national and subnational public health authorities and health workers on their efforts, the Assessment team underscored the need on now filling any residual subnational surveillance and immunity gaps.

On 4 June, *The Lancet* published the results of the first in-human, Phase 1 clinical trial for nOPV2 – a key first step toward determining the potential for a novel type-2 oral polio vaccine that would provide the same level of protection against type-2 poliovirus as OPV without the same risk of reverting into cVDPV2 in under-immunized populations.

These initial results are promising, and suggest the vaccine is safe and immunogenic in adults; further clinical trial results will be important to evaluate nOPV as a potential tool to sustain a world free from all types of polioviruses.

The GPEI Semi-Annual Status Report covering the reporting period July-December 2018 is available online, reporting against the major objectives of the Polio Endgame Plan 2013-2018. The GPEI will continue to publish its Semi-Annual Status Reports, to track progress against the newly-launched Polio Endgame Strategy 2019-2023.

Summary of new viruses this week:

Afghanistan – one new wild poliovirus type 1 (WPV1) case;

Pakistan – two new WPV1 cases and 16 WPV1-positive environmental samples;

Niger – one cVDPV2 case; and, Nigeria – one cVDPV2-positive environmental sample.

Happy Birthday Balay Mindanaw

Our long term partner the Balay Mindanaw Peace Foundation celebrates its 23rd Birthday in May.

Operating from its base in Cagayan de Oro, on the Philippine island of Mindanao, they have installed, and continue to monitor, 58 of Disaster Aid' provided Skyhydrants across the Philippines.

At their meeting of 5th May the Board of Disaster Aid Australia have agreed to supply a further 10 Skyhydrants to Balay Mindanaw this year, together with a grant for the purchase of tanks, pipes and fittings for the installations.

SkyHydrant installation in Cambodia by the Rotary Club of Somerset.

Rotary Club Of Somerset

Disaster Aid Australia are always happy to help other organisations such as the Rotary Club of Somerset, Tasmania provide water to their projects.

Rotary Club of Somerset support a school in Kampot, Cambodia and installing a SkyHydrant to supply Safe Drinking Water was a high priority.

We were able to supply them with a SkyHydrant and advice that enabled them to complete the installation.

The SkyHydrant will mean the School can now provide 10,000 litres of water a day to the pupils.

DAA Patron Prof Rhett Butler

Acknowledgement of SkyHydrant Inventor

Rhett Butler has been recognised by Sydney University with an Alumni Award for Service to Humanity.

To date over 6,000 SkyHydrants have been installed to provide safe drinking water for communities and schools.

With the low cost, light weight, simple operation, and effective removal of contamination; the units have become an important part of Disaster Aid Australia's 'Smart Aid' and 'Safe Water for Every Child' initiatives.

Each SkyHydrant is capable of providing safe water for more than 500 people which means that millions of people around the world are being protected by Rhett's invention.

Rotary

See Bhutan and Give Safe Water

Our Bhutan 2020 project aims to provide safe water to 120 schools by the end of next year.

To raise funds for the project we are promoting fully inclusive holidays in Bhutan from \$6,450 per person (twin share).

During your trip you will be able to personally present 'your' SkyHydrant to a school.

On your return you will receive a tax receipt for your \$5,000 donation with the potential to receive a tax refund of up to \$2,250.

DAA Chairman Conference Report

The annual conference of DAA was held on Saturday May 4th. It is an opportunity to inform representatives and supporters of our achievements during the past year and to create enthusiasm for the coming year. Our keynote speaker was Dr Madenjit Singh from an educational organisation AHHA Education, ahhaeducation.org. Dr Singh told us how he had set up schools in Cambodia, Laos, India, Thailand and Timor Leste. The Rotary Club of Phillip Island San Remo has provided a SkyHydrant to supply clean water to the students of one of Dr. Singh schools in Dili.

Two of our DARTs Dave Tuzewski and Peter Collins inspired us with details of the deployment in Mozambique and other speakers covered topics related to our operation.

The day concluded with dinner and an entertaining and stimulating talk by Winston Marsh, www.winstonmarsh.com.au, on fundraising, promotion and marketing.

During the dinner DAA Chairman Peter Faulkner presented awards to Ted Burton and Des Watts. Ted has been the representative of DAA in Tasmania for many years and in the past year has done such a great job promoting DAA that Tasmania contributed 16% of the total donations, more than the total of all the states except Victoria.

Des contributed to DAA by raising funds on various trips around Australia on a motor bike and by car.

Many positive comments were received and our thanks go to Jan, Martin, Cherie and Brian for their significant input into the success of the conference.

Three Rotary Club members, all a little hard of hearing, were standing by the bowling green in the park. One remarked to the other "Windy isn't it?" "No" the second man replied, "its Thursday". The third man nodded in agreement: "So am I. Let's have a cup of tea"

A doctor, lawyer, and a Rotarian in charge of fundraising all die and arrive at the Pearly Gates about the same time. St. Peter tells them they may each have one thing to take with them to Heaven.

The doctor is first, and asks for \$1 million. This is given and proceeds to enter Heaven. The lawyer, not to be outdone, asks for \$2 million. "Very well," say St. Peter and opens the gate to Heaven for the lawyer.

Finally it is time for the Rotarian, who had just finished a fundraising project for The Rotary Foundation. St. Peter asks him what he would like to take to Heaven. The fundraiser moves up very close to St. Peter, and in a soft voice asks, "It it's not too much trouble, could I just have the names of those two people who were ahead of me in line?"

After a morning fishing, a Rotarian left for a District meeting in the afternoon and his wife decided to motor out into the lake, drop anchor and read her book.

A Game Warden pulls up alongside the woman in his boat. "Good morning, Ma'am. What are you doing?"

"Reading a book" she replies.

"You're in a Restricted Fishing Area" he informs her.

"I'm sorry, officer, but I'm not fishing, I'm reading".

"Yes, but you have all the equipment. For all I know you could start at any moment. I'll have to take you in and write you up."

"If you do that, I'll have to charge you with Sexual assault" says the woman.

"But I haven't even touched you," says the game warden.

"That's true, but you have all the equipment. For all I know you could start at any moment."

"Have a nice day ma'am" the warden said, and he left.
