Leadership Seguin Class of 2021 Heritage Village Project

The Seguin Leadership Class of 2021 is proud to announce a fundraising project supporting the preservation and renovation of the Heritage Village. Seguin is filled with enormous amounts of history and tradition, and we are excited to share this history with our community, visitors, and the next generation.

Please consider supporting this cause and purchasing a brick in honor of your family, or in memory of a loved one. The brick will be placed in a pathway through the Heritage Village to preserve your history for many years to come. You also have the option to have your name or business on the plaque of new tables and benches that will be added to the property. We appreciate your consideration in helping us preserve the history in your neighborhood. A portion of the proceeds will benefit the Child Advocacy Center and Tru-Light Ministries.
