

Connecting a computer to the TV

1. Using the HDMI cable, connect the computer and the TV. Port on the TV is on the right side edge.
2. Turn on the TV and Computer
3. Using the TV remote (NOT the DirecTV remote), press the Source Button. On the top of the TV screen a row of input sources will show. Use the arrow keys to move the selection to HDMI4. Press the center button – enter key.
4. On the Computer – press the key (varies from computer to computer) that tells it you are using an external monitor.

Need to Access the Internet?

If the presentation uses the Internet to access any information, such as

1. Websites,
2. Embedded videos

Use the Ethernet cable to connect the computer to the TV. Port on the TV is on the right side.

Watching a YouTube Video

1. Press the SmartHub button.
2. Using the arrow keys, move and select the red YouTube icon. Press the center button – enter key.
3. Using the provided keyboard, type in Rotary International to get their channel. Then search for the video you want to watch.
