**Sam Kylo asked District 2, Modoc County Board of Supervisor, Pat Cullin's to come and share some new outlooks on the county and where we are at with the county finances as of today.**

Supervisor Cullin's Was pleased to announce that the county has been able for the past year re-pay debt of 500 thousand a year and that our overall debt load is now between 8-10 million dollars. This is a far cry lower than the before assumed totals of 18-20 million. Cullin's was excited about new business opportunities in the fields of possible high-tech industry moving here to fill our depleted downtown. Cullin's was a bit surprised as to how much work this job is and looks forward to the challenge.

## Math and Science Awards For Spring 2015!!!
