## October 11<sup>th</sup> Program – Ken and Elyn Patterson's DG Visit

At the Metropolitan Lubbock Rotary breakfast on Friday morning, October 11 we were honored to have a visit by our own District Governor, Ken Patterson with his wife Elyn. Ken, who had visited all 50 other clubs in District 5730 told us that the district is in "good shape". Ken graduated in Engineering from Texas Tech and had worked for Exxon and served as a football official for many years before joining Metropolitan Rotary in 1998. He encouraged us to attend the End Polio Now dinner in Amarillo on October 19th, and told us how Rotary had changed his life. He reminded us of Gates' comment "We can't let children die because it is too fatiguing to save lives". Then Elyn talked about the Rotary Youth Exchange program and how her life had been changed when we hosted a young girl from Poland. It was a very moving and inspiring program.

*Thanks to Jim Graves for reporting our Friday programs.*

## Metro Sends T-shirts to Malawi Orphanage

A great big thank you to Roger and Janice Pamperin and their JP Fundwear for providing T-shirts at or even below cost for Susan Brints to take to children at the orphanage at the Grace Center in Malawi, one of our partners for the "Malawi Project." The Metro board voted to provide \$500 from our service projects budget to provide these T-shirts, and Roger and Janice made the dollars stretch to a full suitcase for Susan to deliver to the children. Thank you!

## Friday's Program: Stephen Balch TTU's Western Civilization Institute

"Dr. Stephen H. Balch became the director of The Institute for the Study of Western Civilization in September 2012. Before coming to Texas Tech, Dr. Balch served for twenty-five years as founding president and chairman of the National Association of Scholars (NAS), a Princeton, New Jersey based organization of higher education professionals dedicated to the traditional principles of liberal arts education.

During his years at the NAS, Dr. Balch worked to encourage universities and colleges across America to develop new academic programming dealing with Western civilization, "the Great Books," and the study of free institutions. He also played a major role in the founding of a variety of other academic organizations devoted to enriching scholarship and public discussion of higher education issues. In 2007, his work was honored by the National Humanities Medal, bestowed by President George W. Bush in a White House ceremony.

Dr. Balch holds a Ph.D. in political science from the University of California at Berkeley. Between 1974 and 1987, he served on the faculty of the Government and Public Administration Department of John Jay College of Criminal Justice in the City University of New York. In 2009, he received the Jeane Kirkpatrick Academic Freedom Award. Dr. Balch has written on higher education issues for a variety of publications and co-authored *The Vanishing West: 1964-2010*, a report that documents the decline of the study of Western civilization in America's universities."

# Answers to Caryl's Questions

If you thought this was a trick question, what with cowhides and pigskins mentioned in the same sentence, you were wrong. It takes 3000 cowhides to produce NFL footballs each season.

According to Wikipedia, eight teams (Hamilton Tiger-Cats, Montreal Alouettes, Toronto Argonauts, Winnipeg Blue Bombers, BC Lions, Calgary Stampeders, Edmonton Eskimos and Saskatchewan Roughriders) compete this year in the CFL. They'll be joined next year by the Ottawa Redblacks; and groups in Halifax, Moncton, Quebec City, London, and Windsor also have been lobbying for Canadian Football League franchises.

# A Talking Dog Story

A man sees a sign in front of a house: "Talking Dog for Sale." He rings the bell and the owner tells him the dog is in the backyard. He goes into the backyard and sees a black mutt just sitting there.

"You talk?" he asks.

"Yep," the mutt replies.

"So, what's your story?"

The mutt looks up and says, "Well, I discovered this gift pretty young and I wanted to help the government, so I told the CIA about my gift, and in no time they had me jetting from country to country, sitting in rooms with spies and world leaders, because no one figured a dog would be eavesdropping."

"I was one of their most valuable spies eight years running. But, the jetting around really tired me out, and I knew I wasn't getting any younger and I wanted to settle down."

"So, I signed up for a job at the airport to do some undercover security work, mostly wandering near suspicious characters and listening in. I uncovered some incredible dealings there and was awarded a batch of medals."

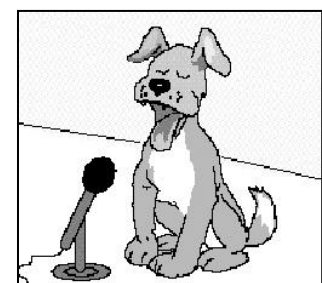

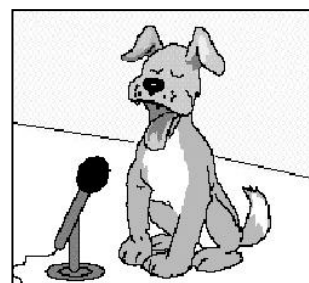

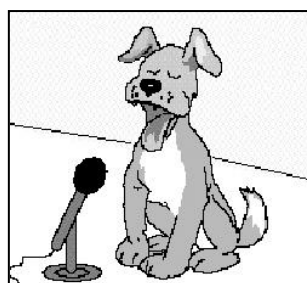

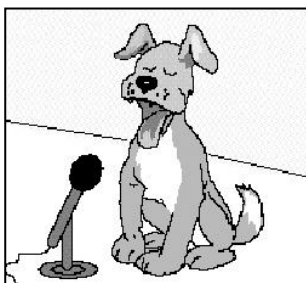

"Had a wife, a mess of puppies, and now I'm just retired."

The man is amazed. He goes back in and asks the owner what he wants for the dog.

The owner says, "Ten dollars."

The guy says, "This dog is amazing. Why on earth are you selling him so cheap?"

The owner replies, "He's such a liar. He didn't do any of that stuff."
