Learning & Journey with ISE Travel

Learning Journey to Siem Reap, Cambodia

Once the capital of the Khmer Empire, today Siem Reap is a bustling little city that offers every educational group a wonderful learning journey opportunity where learning sites are within easy reach such as the largest freshwater lake in SE Asia - Tonle Sap, silk farm, rural villages dotting the agricultural rice plains and, of course, the majestic Angkor Wat amongst the countless religious monuments. In partnership with Learning Journeys Cambodia Foundation, ISE Travel emerges as a pioneer in educational study groups to Cambodia.

Learning Journey to Chiang Mai, Thailand

Once part of the infamous Golden Triangle, Chiang Mai today boasts as a modern city nestled in the southern end of Himalayan region. Strategically located on the ancient caravan trade route, Chiang Mai makes an interesting educational field study site for any student of Geography, Economics and History. The mountains are an agricultural goldfield inhabited by colourful hill tribes. ISE Travel partners with the Royal Project Foundation through its Learning Journeys Thailand arm and offers exclusivity to educational groups for a memorable learning journey programme.
