Dear Sir/ Madam,

13/03/2024

**Completion Report for the installation of 5000 liter tanks in four schools in Kyaka II Refugee Settlement; Kyegegwa District.**

Kakoni General Contractors on , started the process of supply and installation of a 5000L stainless steel tanks in four schools i.e; Bujubuli Secondary School, Kaborogota Primary School, Byabakora Primary school and Bujubuli Primary School as described **PO No: 20240202-W** in the contract and below are pictorial descriptions on how the processes were executed.

**Work plan followed;**

- ==> The team first distributed all the ordered units to the identified schools through engaging the in school heads and staff members.
- == > The team also identified local plumbers and masonry workers to closely work with us as a sustainability strategy in addition to capacity building in execution of operations and maintenance of the projects as well as employment opportunities.
- == > The team started installation processes in above mentioned schools closely working with the school heads and WASH partners, Aqua methods as a direct supervisor and through their guidance, the system was installed at their conveniences. (Some of the factors considered were; Accessibility to the students and staff, security of the system, monitoring and operation/maintenance of the system, water source among others).
- ==> After installations, the in school heads, staff members, students and local plumbers/electricians were oriented and guided through the operation and maintenance of the system and most importantly ownership of the project as one of the sustainability strategies
