Editorial Message

PP Esther Mwambu

Dear reader,

Welcome to the RC of Kampala South bulletin for September 2025.

The Rotary theme for September is 'Basic Education and Literacy' and the 2025-2026 RI Presidential theme "Unite for Good," emphasizes that literacy is the foundation of human dignity, economic mobility, and peace. It urges rotarians to foster sustainable, inclusive education for girls and marginalized youth through collective action. The message calls for uniting talents and resources to expand the reach of literacy projects, creating lasting change by building libraries, distributing textbooks, and training teachers.

In the incoming pages of this bulletin, we share the initiatives of District 9213 and specifically RC of Kampala South, towards Basic Education and Literacy as implemented through their service projects.

We specifically showcase Jjany Primary School project, a little known Kampala South signature project implemented between 2007 and 2014; as well as the Basic Education and Literacy Enhancement Projects (BELEP) that have been impactful in the past years.

We also, share messages of the RI President, District Governor (DG) and club president, as well as the DG's engagements and club activities in September 2025.

Enjoy the reading!

Together, We Unite for Good!

UNITING FOR GOOD TO PROMOTE BASIC EDUCATION AND LITERACY

Dear Rotary Family and Friends,

This month, as we celebrate Rotary's commitment to Basic Education and Literacy, I am proud to highlight the milestones the Rotary Club of Kampala South has made in advancing learning in our communities.

Over the past 2 years, the Rotary Club of Kampala South has donated over 2,400 essential textbooks and learning materials to at least 16 primary schools under the Basic Education and Literacy Enhancement Program (BELEP) and Drop Everything And Read (D.E.A.R.) program organized nationally by the Ministry of Education and Sports; and to one community library in Busesa, Eastern Uganda; as well as the Spina Bifida Hydrocephalus Association, and 3 Foundations; one for orphans, and two for children with special needs.

The club has, in addition, mentored young leaders through reading clinics under D.E.A.R; as well as conducted career guidance sessions; and trained at least 160 teachers.

Notably, the club's first initiative towards basic education and literacy was setting up a library in the Internally Displaced Persons (IDP) Camp in Lira between 1998 to 2008, in which victims of the 20- year Kony Rebellion in Northern Uganda were residing. The club built a library in one of the camps and equipped it with reading material in partnership with the Rotary Club of Kampala Sseese.

Later, between 2001 and 2014, the club built a 7-classroom block at Jjanyi Primary School, approximately 30km South of Kampala City; equipped it with a library, furniture and solar lighting which resulted in growth of enrolment from 150 students to over 450 students to date, which led to tremendous improvement in performance as well.

The Jjanyi Primary School project was largely supported by funds locally raised by the club through its Annual Sports Gala, the reknown Oscar and Friends Concerts sponsored by Nile Breweries, as well as corporates such as Barclays Bank, Hima Cement, Pearl Flowers and Peacock Paints, and the Jjanyi Church of Uganda. And, between 2010 to 2012, the club partnered with Uganda Prisons to provide education and basic needs to over 1,000 prisoners in Kigo Prisons.

I would like to, in a special way, also thank every club member, rotarian and rotaractor who has volunteered time and resources to organize literacy drives, establish community libraries, and sponsor school fees for those in need. Through these collective efforts, we are not only improving literacy rates, but also helping to nurture the next generation of leaders.

Let us keep up the momentum as we strive for a future where every child in Kampala and beyond can read, write and achieve their dreams.

Thank you all for your dedication to service above self.

Message from the Rotary International President

Francesco Crevzo

President, Rotary International, 2025-26

PEACE THROUGH EDUCATION

When I stepped into the role of Rotary International president, the moment came swiftly and unexpectedly. It got me thinking how the world can change in an instant, and how Rotary has the power to be a steady force for good in that change. This month, Rotary's Basic Education and Literacy Month, we have a clear call to action: to strengthen the foundation of learning in every community we serve.

Millions of people worldwide remain unable to read. Millions of children lack access to basic education. And yet, we know the solution: sustainable, inclusive, and equitable education, especially for girls and marginalized youths. Literacy is more than the ability to read and write. It is the key to human dignity, economic mobility, and peace. Every book opened, every classroom supported, and every teacher trained becomes a building block of peace.

This year, our message is Unite for Good. "Unite" speaks to the strength we find in each other. When we unite our talents and resources — not only among our clubs but across partners, organizations, and communities — we expand our reach. And when we do so consistently over time, we create lasting change. Rotary service cannot be measured only in annual goals. Our work in education must extend beyond a single year. Literacy projects take time to take root, grow, and bear fruit.

Now is the time to think boldly and creatively. New types of clubs can help us engage educators, students, and advocates in new ways. Let us use this month to welcome new members with a passion for education and empower existing ones to lead service projects that reflect local needs. Whether you're building libraries, distributing textbooks, or mentoring students, your actions matter.

Education is also peacebuilding. Every scholarship we provide, every early childhood program we support, every adult literacy class we fund is an act of peace. And Rotary has been building peace in this way for more than a century.

Let us not forget that the fight for literacy is not only about access, it's about equity. It is about ensuring every learner, regardless of background, has the opportunity to reach their potential. And it is about standing together — across borders, languages, and generations — to say that education is a right, not a privilege.

Let's Unite for Good by committing to literacy that lasts. Let's dream of a world where every child learns to read. And then, as people of action, let's work together to make that dream a reality.

Together, we can change lives, starting with the power of education. Together, we Unite for Good.

Message from the District Governor

Geoffrey Martin Kitakule

District Governor D9213 2025-26

THE JOURNEY TO FULL ACCESS TO BASIC EDUCATION AND LITERACY IS STILL LONG

Education is the cornerstone of development; a pathway through which individuals and communities rise above poverty and create sustainable futures. In Uganda, significant progress has been made in expanding access to education through initiatives such as Universal Primary Education (UPE). Yet, challenges remain; making it evident that our continued support for basic education and literacy is both urgent and necessary.

Statistics remind us of the task before us, as 36% of Ugandans are still illiterate. While enrollment rates are high, many children do not complete primary school. Some leave early due to poverty, child labor, lack of access to proper menstrual hygiene or early marriages. Others attend school but struggle with poor learning outcomes – too often sitting in overcrowded or no classrooms, lacking textbooks, pencils, exercise books or being taught by overstretched teachers. According to recent reports, literacy and numeracy levels among Ugandan learners remain below the desired standards, threatening the nation's aspirations for growth and progress.

Rotarians in Uganda have witnessed these realities firsthand. Across our communities, we meet children eager to learn but held back by limited resources. We encounter adults who long to read, write and count but have never been given the chance. Literacy is more than the ability to decode or read words on a page – it is the ability to access opportunities, participate in civic life, and support families with dignity. Without it, cycles of poverty, unemployment and inequality persist. This inequality is worsened when one talks about digital literacy in a world that is becoming so digital. A survey presented at the, "Building the Future of Fair and Inclusive Digital Work in Uganda," Workshop held in 2024, highlighted Uganda's low ICT skills and literacy levels, revealing that a lack of knowledge or digital skills prevents 75% of Ugandans from accessing the internet.

An illiterate population is not an empowered population. This is why Rotary continues to place basic education and literacy at the heart of its service. Rotary clubs in Uganda have built classrooms, equipped schools with books and learning materials, provided scholarships to vulnerable children and organized adult literacy programs. These initiatives change lives – a book in a child's hands sparks imagination; a girl who stays in school delays early marriage; and an adult who learns to read opens new opportunities for work and self-reliance.

Yet our work must go further. We need to champion teacher training, strengthen partnerships with government and civil society and explore innovative solutions like digital learning to bridge the Digital Divide. We must ensure that education is inclusive, reaching the rural child, the girl child, the refugee and the adult learner alike.

As Rotarians, we are uniquely positioned to make a lasting difference. Through our networks, resources and commitment to service, we can help build a Uganda where every child can read with understanding and every adult can write their own future. Supporting basic education and literacy is not charity; it is an investment in peace, progress and prosperity for our nation.

Let us, therefore, renew our commitment to this vital cause. Together, United for Good, we can light the lamp of knowledge in every corner of Uganda, ensuring that no child or adult is left behind.

FRIDAY LAZY LUNCH

ROTARY CLUB OF KAMPALA SOUTH AND ASA MICROFINANCE IN TREE PLANTING PARTNERSHIP

In a powerful step toward environmental sustainability, ASA Microfinance (Uganda) Ltd and the Rotary Club of Kampala South have signed a landmark partnership to plant 2,600 trees across various regions of Uganda in 2025. This collaboration marks a significant milestone in both organizations' commitment to fostering greener communities and combating climate change.

The partnership, formalized through a memorandum of understanding, leverages ASA Microfinance's financial support of UGX 7,000,000 and the Rotary Club's expertise in community mobilization and project execution. Mr. Allen Semboze, CEO of ASA Microfinance, expressed enthusiasm about the collaboration, stating, "Partnering with Rotary is one of our best decisions. Their passion and expertise align perfectly with our goals, and we're excited to see this initiative thrive." He highlighted that while ASA has previously attempted community initiatives like medical camps with moderate success due to challenges in mobilizing participants, the Rotary Club's established network and experience will ensure greater impact.

Reflecting on the partnership, a representative from the Rotary Club of Kampala South shared, "We are deeply grateful for ASA Microfinance's generous contribution and shared vision. This initiative will not only green our landscapes but also strengthen community bonds and inspire future generations to prioritize sustainability."

The tree-planting initiative aligns with Rotary's mission to promote environmental sustainability, one of its key focus areas, as demonstrated by their recent multifaceted outreach in Kabale District on August 23, 2025. That project included environmental efforts alongside economic empowerment and health initiatives, showcasing Rotary's holistic approach to community development.

Similarly, ASA Microfinance brings its robust operational framework to the table, managing monthly disbursements of \$32 billion across various locations, which underscores its capacity to support large-scale community projects.

The 2,600 trees will be planted in strategic locations across Uganda, including schools, community centers, and public spaces to maximize ecological and social benefits.
