Dear Mr. Campbell,

Thank you for generously supporting Breakthrough Santa Fe. Because of the support of the Rotary Club of Santa Fe Foundation Inc., our students are able to strive for six years to achieve their dreams of attending college. We have always admired the thoughtful way that the Rotary Club of Santa Fe approaches its philanthropy.

Even in this year of uncertainty, Breakthrough provides a home for our students. During our 2020 virtual summer program, our students received school supplies, a grocery card, and a kit for at-home science experiments. Despite Breakthrough students and teachers being spread out in their own homes, students still took emotional risks and learned valuable academic skills to help them grow as learners. One of our new seventh-grade students, Aileen, was worried that Breakthrough wouldn't be as fun online, but after experiencing the program, she wrote, "Breakthrough is very important to me because it helps me in the future, and it is a very safe and friendly community. It is great."

Because of your support, our students continue to come back year after year, with over 98% of our almost 215 7-12th grade students retained over their six years in the program. And our students continue to follow through with their ambitions, with over 97% of the class of 2020 heading to college this fall. Our young, middle school students are able to look up to the older classes. Adamary, another seventh-grade student, says of Breakthrough, "It makes me feel proud about myself and that I can achieve anything I want. Breakthrough is an opportunity for a better path."

The Rotary Club of Santa Fe's donation shapes the lives of the new generation of leaders of New Mexico by ensuring that middle and high school students have the support they need to strive for college. In a time when the future is so uncertain, the Rotary Club's commitment to the education and development of Breakthrough's young people continues to be vital. Thank you for the belief that our students will succeed and change the trajectory of their families' lives.

Sincerely,

Aaron Schubach
