Thursday's Program

Internet Security

We meet at Grand Tradition this week. Our guest speaker, Carter Thompson, will present on internet security. The U.S. government's Cybersecurity &

Infrastructure Security Agency states 1 in 3 homes with computers have equipment infected with malicious software, and 47% of American adults have had their personal information exposed by cyber criminals. With so many of us shopping online during the holiday season, this is a very timely topic.

- 11:00 AM to 1:00 PM
