Grays
Essex
[REDACTED]

Dear Elaine,

Thank you to the Rotary Club of Thurrock for your generous donation of £500.00. We are very grateful for your support, which will make a real difference to the lives of children with brain injury and neuro-disability.

Every 15 minutes in the UK a child is left with a brain injury following a serious accident or illness. The Children's Trust provides expert rehabilitation, therapy, medical care and family support during their recovery, both at our national specialist centre in Surrey and through our Brain Injury Community Team visiting families in their own homes up and down the country.

Here are some of the ways your donation could help:

- **£60** could pay for special switches to activate equipment and toys. This enables children with limited mobility to use a variety of electronic devices
- **£100** could fund occupational therapy equipment to help a child learn to eat independently again
- **£250** could pay for a new hand-splinting kit to create and build bespoke splints for children with muscle spasms
- **£500** could fund three months of outings organised by the Play Team. Trips out are not only fun and stimulating for children who have often been hospitalised for long periods of time, but help parents learn how to manage their child's new needs in an unfamiliar setting

Thank you once again for supporting The Children's Trust. You are helping us ensure that every child with brain injury has the opportunity to live the best life possible.

Yours Sincerely,

Jessica Allchin
