REPORTS

President Allan

Great success for the fundraiser for the Melbourne Cup. Andy won the \$1000 and he also had another win at his lunch date. So he certainly got lucky ! Still chasing 2 payments for the tickets. You know who you are and please assist our fundraiser by paying your dues. **We made \$2340** and sold 600 tickets on the day as well. Thank you to all our members for your support.

International Bren

Everyone take a leaf out of Bren's book. What an extraordinary man he is. He has injured himself in a surfing incident and has degloved a finger (big ouch!) but he will be going to **RaWCS next Thursday** and the Thursday after to help with packing. Members are invited to go along and please get in touch with Bren for more details on this.

Congratulations to Paul Jaffar, who has got himself a fiancée and is losing no time in getting married (by the end of the year I believe?!) and talking about losing, he has lost a significant amount of weight in the run up to the big event and looking very suave! Congratulations and best wishes to the couple from us all !

Reports contd

Youth Director Jackie

I attended the Interact Board dinner last Monday night. It was a great meeting and the new board was introduced and the outgoing board thanked !

There are 4 applicants for RYTES. 1 is being funded by the Rotaract and they are looking for funding for the other 3 applicants.

RISIBLE CORNER

☺ An actor had been out of work for years because he always forgot his lines. One day he got a phone call from a director who wanted him for an important part in a play. All the actor had to say was, 'Hark! I hear the cannon roar!' The time for the entrance finally came. As the actor made his appearance onstage, he heard a loud BOOM ! He turned around and said, 'What the heck was that ?' ☺

☺ Grandson : 'When did you first realize that you were getting old, Grandpa?'

Grandpa : 'When I started having my midnight snack at 9.30pm' ☺

☺ What do you call Santa's helpers?

Subordinate clauses ☺

Have a great weekend everyone !

Reports Contd ..

Rotary Foundation Ross

Huge shout out to Allan and Charles who stalked the corridors of the surf club on Cup day in their high vis shirts .. giving up a big chunk of their day to sell an extraordinary 600 tix and therefore adding considerably to our booty. It was a massive and successful fundraising effort and thanks go out to them both.

Ross also mentioned his lovely lunch with his friends from the Rotary club of San Francisco. Past President and Fire Chief, Paul Chin, attended and they all enjoyed the ambience and atmosphere of the surf club. They did find it a bit unbelievable that Australia shuts down for a race such as this !

Secretary Charles

We raised \$450 for the Transplant Games. Not a huge success as it wasn't busy. Members to note that the **AGM is on the 29th of November.** We need 2/3rd attendance for quorum.

Scooter David

Never asks for help but he needs a hand to distribute the annual Xmas puddings and scooter inspections. JP suggested a roster be made and everyone agreed that was a good idea. Members keep a lookout for info from David. We have 48 scooters out and so it will be **ALL HANDS ON DECK !!**

Farmers Drought Relief Hamper only \$5.
Contact David for purchasing a ticket !

SPEAKER

We didn't have a scheduled speaker today so Jackie Plaice and yours truly (Shobha) did an impromptu speech on their trip to Dubbo in Jackie new RV. It was an extraordinarily relaxing and fun trip and we met up with a lovely Rotary club (of Tamworth) They are a dynamic club and were one of the first country Rotary club in NSW chartered in 1932 ! Their major fundraiser is an Annual Book Sale in May and they also have a food stall at the Country music festival (if anyone wants to volunteer?!) We also met Raymond McLaren, one of their members, who is an engineer extraordinaire. We managed to check out Raymond's workshop and the inspirational work he does, to promote science in the community. He is a passionate engineer with a streak of creativity in the products that he creates. This is apart from the company he founded and runs called Andromeda Industries, which is recycling the rubber off the conveyor belts in mines and cutting them down to make rubber mats for various applications. Extraordinary man !
Lovely visit to this Rotary club and its members.

Any comments folks ?
