

WR2NR2 SUBM .

The Future of Architecture

Built environment (weight, approx.)

2023: 1,000 Gt

Increase popul. 670 Gt

Catch up GS 1,700 Gt

2050: 3,300 Gt

Target level is 335 t cap⁻¹

GS = Global South

1 Gt = E09 t = 1,000 Mt

Build for more with less

Consider the built environment as a part of the nature
