

Thank you for supporting Rotary Club of Coronado Binacional Foundation by allowing ACN to provide your communications services!

Who is ACN?

ACN is the largest direct-selling telecommunications company in the world with market presence in 24 countries, more than a million customers and annual revenues exceeding half a billion dollars! ACN provides customers with the telecommunications and home services they already need and use every day, as well as the cutting-edge services of the future.

How does this work?

It's easy. By becoming an ACN customer, you'll receive the same services you're using today – at Competitive market rates – and our club will directly benefit financially!

How does this help our Rotary Club?

You're buying these services anyway. If you buy them from ACN, the school will receive a percentage of your monthly billing. In other words, the school will receive a direct financial recurring amount from ACN for as long as you remain an ACN customer or for the term of your agreement.
