

Pacific Breezes

Rotary Club of Mission Bay

Meets Monday Noon at the Catamaran Hotel

Summary of Meeting November 3, 2014

Our President, Gus Goldau, and his wife are off to Israel and Jordan. Gus should receive a special thank you for all the effort he put into the Bocce tournament. In his absence, Susan Rezner led the meeting. Honorary member, Dean Dickinson, led the pledge.

Susan then reviewed some of the activities at the District Conference. For the program she reviewed a program "**Project Peanut Butter**" and showed a video. In several third world countries such as Malawi and Sierra Leona, young children are malnourished. Many die young. If they go to a hospital, they become infected with some germ and they have no resistance. In these countries, peanuts grow wild. When they are cultivated they produce even better. A researcher Doctor has come up with a formula using the peanuts for a nutritional formula at low cost. It combines peanuts, with milk powder and vitamins. At \$25 enough formula can be provided to save and restore a young person. A photo was shown of a very under weight young girl. After 6 weeks another picture was shown revealing a remarkable improvement. This formula can be taken home so mothers can use it and not have to risk taking their children to the hospital. 12 months after using this product, 96% of these children are still well nourished. This therapy is endorsed by UNICEF. The goal is to save over 2 million children by 2015.

The International Assembly will be held again this year in San Diego between Jan 18 and 24, 2015. Our club typically hosts four incoming district governors for this event.

Happy/Sad\$\$\$ were contributed by Howard Singer. He would like to know if any one has extra garage space he could rent to store one of his cars. Matt Cowman, Jim Willis, John Gartner, Dean Dickinson, . Jewitt from Yuma and Susan Rezner also contributed.

Next Week: To be determined.
