Happy Sad\$\$\$\$w were contributed by **Susan Thorning for marrying Alan Rezner last Wednesday**, Dean Dickinson, and Michael McQuary. thanking members for helping with Concerts on the Green.

Carl DiMaio was introduced. Carl was a member of our club in 2002. He is a candidate for congress. He was on the City Council in 2008 and pressed for pension reform in 2012. We remember at the Rotary table hearing him talk about the problems of the City and how people were predicting bankruptcy. Carl talked about his experience on the council and the reforms. He worked hard on pension reform. He found that the water department received bonuses every year. He found that personnel retired and their first year retirement pay was more than their salary was. He worked hard to balance the budget and find ways to save money. He did not think redevelopment money should go for Petco Park. This obligated the City for annual payments. He was asked questions about congress and his comment about both parties being broken and how he would fix that. His response was to develop bi-partnership in congress and to eliminate bad projects. He was asked about Immigration Policy, His response was to control the border, How did he feel about the Hobby Lobby verdict- He did not think the government should dictate health care. Jim Dorcy brought up the subject of the Border and pointed out that it is very long and hard to secure. Carl said to think that anything is possible.
