Youth Magic Productions

Bill Ruhkohl, founder of Mircle Youth Productions, spoke to us regarding the organization's applied education approach beyond the classroom for high school and college students. Their goal is to help local organizations enhance their presence with affordable video productions and on-line advertisements. Under the guidance of Ruhkohl and other community volunteers, the students run the production company from end to end including the accounting department. The group has created plays, commercials, videos, theater and live events. Currently they have 25 students participating in the internships. Through the video production internships, students gain hands on experience creating advertisement and learning valuable skills. These internships provide real-world opportunities for young creatives to apply their passions in a professional setting. You can help by volunteering, sponsoring equipment needs or using your years of business experience to mentor the youth.
