## Guest Speaker – Bob Glindermann, Donations In Kind

Our chair for the evening, President Elect, Gary Frank welcomed Bob Glindermann to our meeting. This was a great opportunity to learn more about the fantastic organisation of Donations In Kind.

Rotary Donations in Kind is a volunteer-based recycling facility used to collect and redistribute goods, principally donated by companies, hospitals and educational institutions. The goods it distributes are destined for developing countries and to disadvantaged individuals in the local community. They are distributed through Rotary club projects and the wider NGO network.

All staff in the Store are volunteers, both Rotarians and others. They donate their time to help Rotary clubs with their international service and local community projects.

### How is the Store funded?

The annual cost of operations is \$150,000+, mainly for rent and warehouse overhead. While this expense is a significant sum, it represents just 1.6% of turnover. The majority of support comes from Rotary clubs with a small contribution from other charitable organisations who use the store.

DIK increasingly relies on donor organisations that provide the goods to become partners and to contribute some of the funds that they are saving in disposal costs, (e.g. transport and waste charges,) towards transportation costs.

Rotary Donations in Kind is a registered charity with Australian Charities and Not-for-Profits Commission, (ACNC.) Donations to DIK Inc. are tax deductible. [Details.](#)

### From where are the goods collected?

DIK West Footscray receive and collect goods in Melbourne and some locations in regional Victoria. There are additional DIK stores in Geelong and most capital cities. DIK relies on Rotary clubs to identify where goods are available for donation in their area and to coordinate collection of suitable material.

DIK provides a volunteer-run limited pick-up service for larger quantities in the Melbourne metropolitan area and will collect goods by prior arrangement. Smaller quantities should be delivered to the Store by the donor or a Rotary Club.

### How are the goods distributed?

A significant amount of unallocated goods are available for Rotary club projects. For international projects, Rotary clubs determine the needs, establish the specific country importation requirements and fund the transport and delivery costs. For local projects, goods are distributed by Rotary clubs on an as-needed basis. Surplus goods may also be available for community service organisations who share similar goals.

## Cobar Drought Relief Efforts – Ken Cain

Members will recall a zoom meeting a couple of weeks ago that provided us with an update on the state of the drought in the Cobar region. Ken Cain was promised one of our amazing pottery mugs that are gifted to our guest speakers – here is President Mick delivering on the promise and presenting the mug to Ken.

Mick and Mandy, along with Geoff and Marg have escaped our Victorian weather and are enjoying a camping trip – wonder how long it will take before someone realises they are from Victoria and sent packing back across the border!
