KEEPING CONNECTED WITH AND FOR OUR LOCAL COMMUNITY

With the COVID 19 pandemic impacting Rotary Clubs world-wide - along with many of the community welfare organizations that offer support - are we now faced with a new and different challenge: what more can we do?

What more can we, the Rotary Club of Wanneroo--alone, or in association with other clubs and organizations—start doing today that will help make a better tomorrow for many of those people in OUR community that really do need MORE and DIFFERENT support due to the impact of the COVID -19 pandemic?

Given we are already an active Club with many on-going community support commitments, and given our annual income sourcing efforts already include substantial fund-raising efforts and grant applications, what more can we do? Can we imagine new events and new support projects that we can help initiate with the objective of being beneficial to all concerned? Or can we simply identify existing needs and offer more support to welfare organizations? Perhaps a good place to start is to ask our local community welfare organizations that we already support for their opinions and their pandemic experiences to ensure we have the right information to help us make the right decisions? Let's try and discover the projects and events that provide the greatest possible benefits to our Community.

and ALSO consider State, National and International COVID-19 needs too!
