ROTARY AND THE 'NEW NORMAL' WE NEED TO WORK FOR ...

As we now know, the Covid-19 pandemic has brought drastic changes to many lives and sadly ended many lives around our world in only a few short months. There is a possibility that it will continue to impact our world for many years, but there is also a possibility that a reliable vaccine will be developed- just as there was for polio - giving the world a new normal to live with.

As members of a long established world-wide voluntary service organization, now is a good time for Rotarians to remind themselves "that Rotary has been working to eradicate polio for more than 30 years, and we've made incredible progress in the fight to rid the world of it forever. As a founding partner of the Global Polio Eradication Initiative, we've helped to reduce polio cases by more than 99.9 percent." We haven't done it alone or without generosity from many donors.

What can we possibly do today that will help make a happier, healthier and wiser world tomorrow? Here are some suggestions:

- Keep meeting as often as we sensibly can by whatever means we can—including ZOOM
- Keep thinking of the financial plight of so many millions in Australia and around the world
- Keep doing all we can to help the mental health of all those who can't see a better tomorrow
