## END POLIO NOW

### Reasons to Eradicate Polio

**To Improve Lives.**  
 16 million people are walking today who would have otherwise been paralyzed.

**To invest in the future.**  
 If polio isn't eradicated, within 10 years, as many as 200,000 children could be paralyzed by it each year.

**To Improve Child Health.**  
 Polio surveillance networks and vaccination campaigns also monitor children for other health problems.

**To Make History.**  
 Polio eradication would be one of history's greatest public health achievements, with polio following smallpox to become only the second human disease eliminated from the world.
