

MONITORING REPORT No. 16

Project: Construction of dry composting toilets.	
Location: Hamlet Metalillito, Canton El Roble, municipality of Acajutla, Sonsonate.	
Beneficiaries: 196 families	
Project Director:	Edwin Mejía Mejía
Supervisor of the project:	Ricardo A. Barrera
Source of funding:	Rotary International Foundation
Term project:	120 calendar days
Project start date:	January 28, 2015.
Reporting period	19 to 25th May 2015.

Activities performed:

In this period, no physical work activities were carried out, as these are fully completed last week. Only the last day of training in use and maintenance of the composting toilets, for beneficiaries of the last phase of the project was developed.

Remarks:

This report includes only the activity of training in use and maintenance of dry composting toilets, which was held on Sunday, May 24, with regular attendance of beneficiaries.

He took advantage for beneficiaries to sign the engagement letter proper use of latrines, and to the signing of a document group where the project thanks to the north west of El Salvador Rotary club.

It will monitor the delivery of the latter document and will also be signed by other beneficiaries of the previous stages, but these were not invited to the last day of training.

With this activity the implementation phase of the project is closed, recommending that the activities that seek sustainability resumption project proposals:

- Checking the use of latrines at least within 60 days after the end of the works, in order to check the physical condition and good use.
- Checking the status and capacity (filling) of the bedrooms to provide for emptying them.
- Performing comprehensive management plan for the use or disposal of composting produced by 196 families.
- Feedback and regular training in the use and maintenance of latrines.
