

The Rotary eClub of Latitude 38 District 9820

Now it's even easier to become involved with your local Rotary Club

Membership of Rotary International is indeed a privilege and a wonderful opportunity to give something back to the community.

Becoming a [Friend of Rotary eClub Latitude 38](#) allows those who share our ideals and objectives to participate in our activities without the responsibility of full membership. As a matter of fact there are many people who would qualify for membership but simply do not have sufficient time to join a Rotary Club.

Being a [Friend of Rotary eClub Latitude 38](#) allows you to help in local fund raising by participating in club events or by making annual donations. Some club events are not specifically for fund raising but for socialising – Rotarians call this fellowship, an opportunity to enjoy activities and each other's company, catch up with old friends and make or develop new ones.

As a [Friend of Rotary eClub Latitude 38](#) you will be kept abreast of club events and will be invited to participate or contribute to Rotary activities which may simply be by giving some of your time. There is no minimum level of time contribution. All help is always appreciated in helping us help the community.

a [Friend of Rotary eClub Latitude 38](#) cannot be existing Rotarians as it is not intended as a substitution for Rotary club membership. Anyone interested in becoming a Rotarian would still have to follow the usual procedures for membership. To find out more visit our website at <http://www.eclublatitude38.org> If you are interested in becoming a [Friend of Rotary eClub Latitude 38](#) simply complete the application form and return it to the club.

The annual administration fee is \$25.00 and although not obligatory, we also recommend an annual *tax deductible* donation of \$25.00 to the Rotary Foundation.

The Rotary eClub of Latitude 38 meets online fortnightly on Mondays via Zoom at 7:30pm. Meetings usually last one hour.

The Club originated in District 9820 but otherwise has no boundaries.
