

Experts in Technologies That Keep People Safe

Since 2013, scDataCom has deployed an arsenal of technology tools on behalf of smart business owners seeking to protect, understand and enhance their business.

Our niche is in implementing top of the time electronic security technologies, like access control and surveillance cameras, to help solve problems. In short - we're a B2B company and our business is securing yours.

A Bit About Us...

We are Nationally Recognized Experts.

We've helped to improve the security posture of local commercial clients large and small and have also traveled to 20 states and installed thousands of cameras in support of customers like The Department of Veterans Affairs, Homeland Security and various DoD agencies.

Proudly Woman & Veteran Owned.

We are proud of these affiliations and are committed to representing these relationships in a way that reflects positively on the populations that we represent.

Savannah is our Home!

We are headquartered in beautiful Savannah, Georgia and serve a large commercial customer base within our local area including customers like Imperial Sugar, Georgia Port Authority and Candler Hospital Network

A Bit About Me...

Education

Valdosta State University

BA in International Business w/ a concentration in Marketing

Career

Business Development: I support our Sales & Marketing team by utilizing digital media outreach, networking and sales support methodologies to help increase business opportunities and long lasting partnerships.

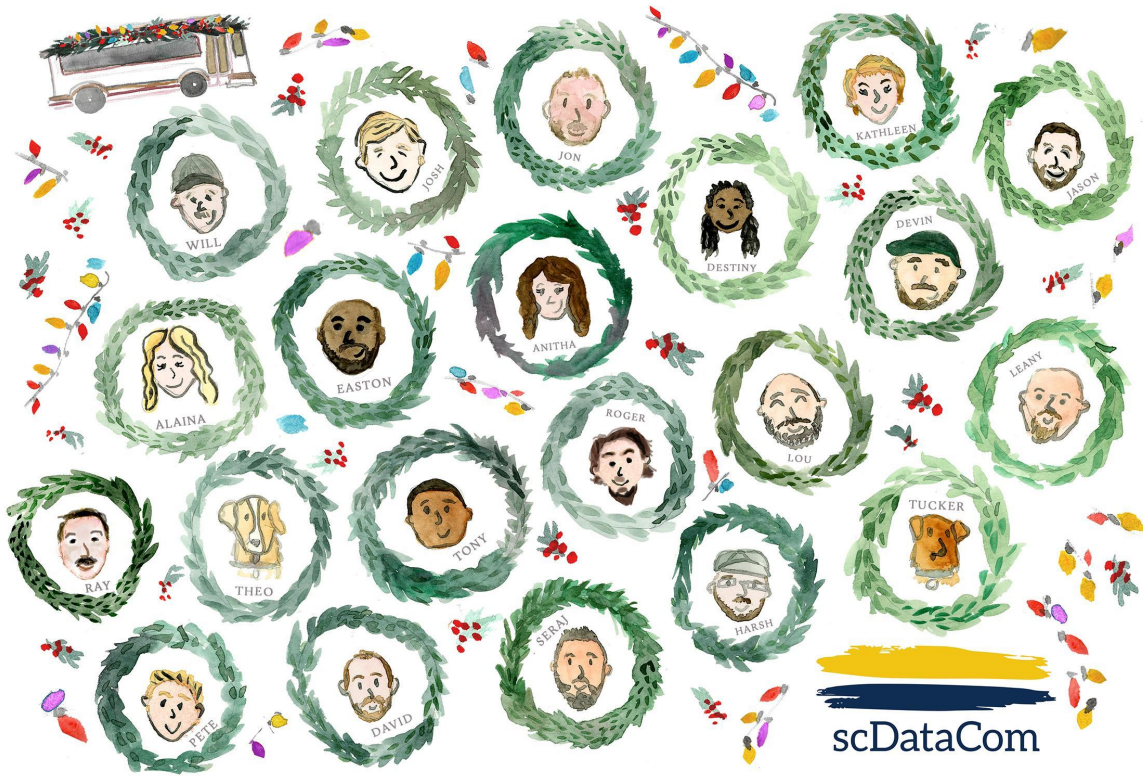

Extra

When I am not fostering relationships with amazing clients, I am pretending to be on CHOPPED, volunteering in the Savannah community, and traveling the world!

Our Team

HAPPY HOLIDAYS!

The Taylor Gang
