

Dear Rotary

This is Sesi from Dayspring

Thank you very much for building this toilets for us. This makes my job as a hostel parent so much easier, as I don't have to worry about my children lining up for a toilet any longer.

The lights are also helpful at night each child can go without assistance.

I don't have to wake up very early in the morning to boil water for bathing. We are really blessed with your generosity.

Keep up your good work you are making a difference

Much appreciated

Sesi and the hosteltjie
